Mayor's 2015/2016 Preliminary Budget Message

Date: November 3, 2014

To: Citizens of Marysville and City Councilmembers

From: Honorable Mayor Jon Nehring

I am pleased to present to the citizens of Marysville and the City Council the sixth balanced budget of my administration and the city's first biennial budget.

The City's financial condition continues to strengthen—the result of a recovering economy, growing community and careful financial planning. I am proud of our progress and believe that the current budget maintains financial prudence and discipline, while allowing progress on strategic initiatives that are important to our community.

The biennial budget requires us to develop a planning budget spanning two years, and encourages us to anticipate both opportunities and challenges in the years ahead. I believe that longer term planning will further enhance our financial stability and allow us to better serve our community.

Looking Forward

We must make progress on several key initiatives to respond to community needs. These are priorities that are critical to our community's growth and progress. These include solutions to train traffic, downtown revitalization, street maintenance, replacement and expansion of aging city facilities, and promoting public safety and security. We continue to seek outside funding sources from the state and federal government, but recognize that many of these challenges will entail city resources.

The increased train traffic from coal and oil trains have hampered mobility in Marysville. This biennial budget provides funding for the design and permitting of an interchange at SR529 and I-5 to improve traffic flow as well as provide a critical access point unimpacted by trains. The construction has a price tag of \$30 to \$50 million and we are working hard to find state and federal funding sources.

Downtown revitalization and waterfront access has been identified as a community priority for many years. The city has continued to assemble properties and pursue cleanup to enable shoreline access and redevelopment on these sites. In addition, we have worked on attracting people into the downtown through civic improvements and development of recreational opportunities. The biennial budget continues this initiative with progress on trails, downtown spaces and property assembly and cleanup.

Street maintenance is a clear priority for our citizens. Last April, voters in Marysville approved a Transportation Benefit District, funded by a .2% increase in sales tax within the city that will be dedicated to street maintenance and improvements. This budget provides additional resources for maintaining our rights of way in order to promote safety, mobility and street image within our community.

Our city facilities are in need of attention. Most dire is the Public Safety building, built 27 years ago with a community 1/10th our current size. The Public Safety building provides space for Police, Fire, Investigations, jail, records and evidence. This biennial budget includes funds to determine future needs of this facility.

Earlier this year the City adopted a biennial budget process to assist with future planning and capitalize on efficiencies. The budget I present to you is a two year budget for 2015 and 2016.

Fund Type	Description	Amended 2014 Budget	Preliminary 2015 Budget	Preliminary 2016 Budget	2015 Prior Year % Change	2016 Prior Year % Change
General	General	42,388,524	44,102,196	45,099,153	4.0%	2.3%
	General Reserves	-	1,400,000	-		-100.0%
Special Revenue	Streets	4,268,541	4,212,114	4,362,965	-1.3%	3.6%
	Arterial Streets	-	2,100,000	1,600,000		-23.8%
	Marysville TBD	600,000	1,604,008	1,604,008	167.3%	0.0%
	Other Special Revenue	1,798,850	2,168,854	2,179,740	20.6%	0.5%
Debt Service	LTGO	3,994,495	3,348,315	3,296,889	-16.2%	-1.5%
Capital Projects	Streets Construction	5,505,836	9,780,139	1,157,164	77.6%	-88.2%
	Parks Construction	707,207	921,386	146,987	30.3%	-84.0%
	LID 371	200,000	-	-	-100.0%	
Enterprise	Water/Sewer Operating	25,492,225	26,344,943	26,123,929	3.3%	-0.8%

	Solid Waste Management	7,249,782	7,777,758	8,433,122	7.3%	8.4%
	Golf Course Operating	1,274,175	1,258,855	1,278,551	-1.2%	1.6%
	Water/Sewer Debt Svc.	12,777,918	10,203,260	5,319,188	-20.1%	-47.9%
Internal Service	Fleet Services	2,314,013	3,315,649	4,107,959	43.3%	23.9%
	Facilities Maintenance	317,936	319,264	333,873	0.4%	4.6%
	Information Services	858,213	1,004,266	1,036,398	17.0%	3.2%
Total Operating Budget		119,465,715	128,096,007	109,674,926	7.2%	-14.4%

Assumptions

Revenues

The 2015/2016 Preliminary Biennial budget continues to take a conservative approach to revenue estimates. The retail base has seen a gradual climb most recently with the additions of Walmart, O'Brien Honda, and Walgreens. This increase assists with diversifying the city's funding sources, increasing our financial stability.

Property tax assessments are estimated to rise for the 2015 tax year, the second year after a long, steep, downhill slide. 2015 and 2016 estimates remain conservative. Sales tax has taken some leaps with new retail and construction this past year. We have estimated 9.6% growth for 2015, and 4.1% for 2016 which we believe are realistic projections based on current retail openings and development permitting.

Revenue assumptions for the 2015/2016 Biennial continue

under the same guidelines that have been exercised over the past several years. This budget proposal does not anticipate the state allowed increase of 1% for property tax levy. It does anticipate the Emergency Management Services levy allowance of a 1% increase. We have included a 2% increase for water/sewer/storm as allowed per city code to construct necessary capital improvements in the utility system, while maintaining rate stability. The solid waste management rates will remain at 2014 rates until the rate review completion in the 2015/2016 biennium.

Expenses/Expenditures

In response to the funding shortfalls caused by the Great Recession, the City delayed infrastructure replacement and maintenance for our fleet, facilities, and technology. The 2014 budget helped re-establish maintenance and replacement funds and I am pleased to say that technology will be back on track by year end 2015. Facilities maintenance is improving and fleet replacement is now our priority. For the 2015/2016 Biennial Budget I am recommending a larger contribution to ensure that our police, utility workers and other employees have safe and suitable vehicles and equipment to fulfill their responsibilities.

General Assumptions

- A 2% authorized cost-of-living adjustment, for each year, under the Marysville Police Officers Association (MPOA) union contract, and a COLA with performance pay budgeted for non-represented personnel. The Teamster union contract remains under negotiation.
- Employee premium health benefit rates are estimated to increase 6% as the city continues with our provider using a self-insured approach and wellness program to discount premium rates by 2%.
- A 21% increase in costs related to state legislation changing the contribution rates for public employee retirement pensions that takes effect July 1, 2015. The full impact of these rate increases will affect all cities in 2016.

Highlights

In 2011 we reduced our employee staff levels by 29 positions from 2010's budgeted level of 277 FTEs. This occurred at the same time our city population increased by 20,000 citizens, representing an almost 50% increase in citizens served. The proposed budget provides for a number of positions to address increased community and regulatory requirements. Even with these positions, the City's total staffing for 2015 is 270 FTE's and for 2016 it is budgeted at 276 FTE's. This is still below the 2010 approved levels, prior to the Recession. Many of these positions will be fee funded, generate offsetting revenues, or are expenditure-neutral from prior years due to reducing outside contractor expenditures. A valuable lesson to the City from staffing cutbacks in prior years was to carefully consider employee hire decisions to ensure they bring long-term value to the taxpayers of this community. I would not recommend these

positions unless I felt this test was met. Even with these positions, Marysville continues to operate lean with employee-to-citizen ratio of 4.4 FTEs per 1,000 of citizens. In comparison Washington cities similar in size have staffing levels between 8 to 14 full-time employees per 1,000 citizens.

I am proposing several initiatives in the 2015/2016 biennial budget that will enable us to advance our goals for economic development, transportation infrastructure and other key service priorities:

- **Pavement preservation** – \$500,000 in 2015 to enhance the newly formed Marysville Transportation Benefit District (TBD) passed by voters this April election. The TBD, funded by 0.2% sales tax, will provide much needed funding to transportation mobility in Marysville. Pavement preservation for the 2015/2016 Biennium:

100th Street NE from State Avenue to 48th Drive NE
 67th Avenue NE from 88th Street NE to 100th Street NE
 60th Avenue NE from Grove Street to 93rd Place NE
 Sunnyside Blvd. from 51st Avenue NE to 52nd Street NE
 116th Street NE from State Avenue to 47th Drive NE
 128th Street NE from State Avenue to 43rd Avenue NE
 122nd Street NE from State Avenue to 38th Avenue NE
 Beach Avenue from Grove Street to Short Street
 Sunnyside Blvd. from 46th Street NE to 71st Avenue NE

- **Capital Facility Maintenance Plan** - \$300,000 to fund a capital facility maintenance plan.
- **Downtown revitalization** - \$150,000 dedicated for downtown revitalization efforts to create a downtown and waterfront area that is a more vibrant, attractive and pedestrian-friendly place for visitors and shoppers. The City will continue to improve infrastructure, fixtures, landscaping and signage, as well as support police and code enforcement measures designed to make downtown more beautiful and crime-free.
- **Code enforcement community cleanup** - \$30,000 for multiple cleanup activities deployed as part of Clean Sweep Week activities, a cost-effective, successful community cleanup event last year that rallied community volunteers, merchants and City employees for a once-over spring cleaning.
- **Park trails construction** - \$100,000 for a future extension of Bayview Trail, south of SR528.
- **Consulting Services** - \$150,000 for analysis of specific city services including Courts and Jail to review current practices for efficiency and cost effectiveness.
- **Economic Development** - \$50,000 to expand services and contact to the business community.
- **Transportation** - \$1,400,000 to continue the design of an interchange at SR529 and I-5. \$7,726,000 for improvements along State Avenue, 67th, 88th, and various locations through-out the city. These funds along with the TBD funding of over \$3 million for the biennium provides for a substantial boost to address the City's transportation needs.

Economic development

In addition to the continued focus we will place on downtown revitalization, our emphasis on creating a regional manufacturing, light industry job center for Marysville in the Smokey Point area will be an equally strong long-term endeavor. We signed a joint resolution between Marysville, Arlington and the Tribes supporting regional coordination of a manufacturing and industrial center to support The Boeing Company and manufacturing and supplier expansion in North Snohomish County. The Smokey Point area is master planned with the potential to create thousands of jobs in aerospace, technology and other light industry and manufacturing. In 2015 and 2016 the City will be working to identify industry needs in order to establish a stronger relationship with our business partners.

Transportation improvements completed

The completion of key transportation projects in 2014 assisted with improving driver and pedestrian safety while easing some congestion.

Key transportation projects completed in 2014:

- Signalization at 53rd and SR528
- Pavement Preservation
 - 108th Street NE from 51st Avenue NE to 67th Avenue NE
 - Grove Street from 73rd St. NE to 79th Dr. NE
 - State Avenue from 88th Street NE to 92nd Street NE
 - 44th Avenue NE from Grove Street to 76th Street NE

Transportation remains one of our top priorities and we continue to maximize local resources, including transportation mitigation fees and REET, to leverage outside funding from state and federal grant sources. Our energetic and resourceful team of engineers and project managers have established a successful track record of acquiring grants and using taxpayer resources efficiently to maintain streets and to construct improvements that will improve travel for Marysville residents and businesses.

Summary

This spending plan seeks to maintain our City's status as a desirable community in which to live, work and play while maintaining the sound economic foundation our Citizens have come to expect. We are committed to prudent fiscal management, effective service delivery, and providing our Citizens with the highest quality of life possible.

This preliminary biennial budget builds on our priorities and community values, but it needs your voice. I invite you to become a part of the budget process by joining us for a public hearing to share your input on the preliminary biennial budget scheduled for 7 p.m. Monday, Nov. 10th in the Council Chambers in City Hall, 1049 State Ave., Marysville, Wash.

I would like to thank the Finance Director, Department Directors and Staff for their efforts in making this proposed budget possible. I would also like to thank the City Council for providing clear courses of action for developing the budget, and I look forward to the discussions ahead.

I encourage your questions and suggestions on the community issues important to you, and the services your City provides. You can contact me by telephone at (360) 363-8089 or email jnehring@marysvillewa.gov.

I look forward to working with Citizens and the Council in the coming year.

Respectfully,

Jon Nehring

CITY OF MARYSVILLE ORGANIZATIONAL CHART

THE HISTORY OF MARYSVILLE

To trace the origins of Marysville, today a prosperous, diversified north Snohomish County city of 62,000, you need to return to 1872 and Marysville's humble beginnings as a saw mill town and trading post. James P. Comeford, proprietor of the original trading post and founder of Marysville, and wife Mary, first arrived in the area in 1872, and paved the way for many pioneer families to follow. The Comeford's lived on the neighboring Tulalip reservations for six years, traveling the waterways and seeing to the work of the 18 logging camps that were manned almost solely by Indians. The Marysville Historical Society tells that in 1878 John Stafford, Louis Thomas and Truman Ireland and Captain William Renton, traders in timber wanted to sell 1,280 acres, the land that became the town of Marysville, and Mr. Comeford was willing to buy. He paid \$450. He then built a store with living quarters attached and a small dock with a plank road called Front Street.

By 1879 education became a need of the small but growing community, and Mrs. Comeford began teaching classes in her home. A year later, Marysville opened a post office with Mr. Comeford as the first postmaster. Mr. Comeford designed the original town in 1894 and a year later the platted area encompassed nine blocks from the Tualillip Reservation to Liberty Street. The Comeford's and their family's store did good business with the loggers and Indians in the area, and additional settlers arrived by steamboat to farm or work in the busy mills that furnished the lumber for most early town buildings. The railroad tracks were laid through the town in 1889, which brought many new residents to Marysville. In 1891, James Comeford incorporated the town, and Mark Swinnerton was elected Marysville's first mayor.

From these modest roots, Marysville has developed into an ideally located economic center in north Snohomish County, one that offers residents and businesses a way of life that provides opportunities to prosper, while preserving the unhurried qualities we have all come to treasure in this fast-growing region. Led by a government that continues to demonstrate its commitment to customer service and to building a healthy infrastructure through major public improvements, Marysville is poised for a strong and sound future.

VISION STATEMENT

Experience Marysville – Live, Work, Play

MISSION STATEMENT

The City of Marysville partners with the community to provide quality, innovative and efficient municipal services which promote economic growth, thriving neighborhoods, healthful living, and financial sustainability for our residents and businesses.

CORE VALUES

Integrity

We conduct our work in an atmosphere of honesty, respect, and courtesy recognizing the impact our actions have on the quality of life now and in the future.

Trust

We are committed to earn, maintain, and enhance the trust of each other and the community.

Teamwork

We nurture successful working relationships with all our partners.

Accountability:

In the performance of our duties, we are individually and collectively accountable to citizens, customer, and stakeholders. We are competent, responsible, and dedicated to providing effective and efficient services.

Innovation

We encourage and support new ideas and creative approaches.

Commitment

We provide quality services with a continuing focus on excellence.

Diversity

We value and respect the uniqueness of our employees and citizens.

BUDGETS & BUDGETARY ACCOUNTING

The budget document sets forth the City's financial plan for the 2015 fiscal year.

In the City of Marysville, annual budgeting begins with general direction provided by the City Council. The City budget process serves the function of creating a framework to implement the policies set forth by that body to administer the City organization and deliver the various services to the community. Under the general guidance of the Mayor and Chief Administrative Officer, Department Directors have primary responsibility for formulating budget proposals in line with the Mayor and City Council priorities.

Budgeting begins with an understanding of the needs and issues important to the community that the government serves. General goals and priorities are identified in order to apply the available financial resources of the City to specific funding proposals. Previous budgets are considered in this process, thereby providing continuity with previous programming.

The budgeted appropriations (expenditures) must, by law, be balanced with either revenues and/or unreserved fund balances. The budget document not only addresses operating expenditures for the budget year but also incorporates major capital outlays to be undertaken during the year. These major capital outlays, in many respects, set the course of the City for many years to come.

As necessary during the course of the year the budget may need to be amended. The City Administrative Officer/Mayor has the authority to transfer budgeted amounts between programs within any fund; however, City Council must approve any revisions that alter the total expenditures of a fund. When Council determines that it is in the City's best interest to increase or decrease the appropriation for a particular fund, it may do so by ordinance.

BUDGET PROCESS

The budget process is the single most comprehensive analysis of available resources and the allocation of those resources to fund services for Marysville's citizens. The budget document is designed to illustrate clearly the resources that are available for appropriation, an analysis of the decisions about the allocation of resources, and the resulting budget plan.

This budget document is developed in a manner to study and review the direction of the City of Marysville. This document outlines the manner in which financial resources will be managed during the year. The course the City is taking can be changed through the allocation of financial resources. The major groups who participated in the budget process were the Mayor, City Council, Chief Administrative Officer, Department Directors, City staff and interested Marysville residents.

The City of Marysville's biennial budget is adopted by ordinance in accordance with the requirements and time limitations as mandated in state law Revised Code of Washington (RCW 35A.34). The budget must be adopted as a balanced budget and must be in place prior to the expenditure of any City funds. The calendar for the City of Marysville Budget process is as follows:

BUDGET PROCESS STEPS	JUL	AUG	SEP	OCT	NOV	DEC
1. Estimates of Revenues and Expenditures prepared by departments.						
2. Estimates submitted to Finance for compilation.						
3. Review of Program Requests by Directors, Mayor & Chief Administrative Officer.						
4. Budget workshops are held with City Council						
5. Preliminary Budget submitted to City Clerk and made available to the public 60 days before the end of the fiscal year.						
6. Public hearings are held at council meetings.						
7. Council approves budget by December 31						

FINANCIAL STRUCTURE

The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. Each fund is accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. The City's resources are allocated to and accounted for in individual funds depending on what they are to be spent for and how they are controlled. The city budgets each fund individually.

Accounting for the flow of dollars in and out of accounts varies depending upon whether the fund is of the governmental or proprietary type. Government funds are designed to measure those financial resources on hand at the end of a period that are available to be spent or appropriated in future periods. Proprietary funds, on the other hand, are designed to reflect the overall economic health of the fund.

The following are the fund types and account groups used by the City of Marysville:

GOVERNMENTAL FUND TYPES:

All governmental funds are presented using the flow of current financial resources measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Governmental fund operating statements focus on measuring changes in financial position, rather than net income; they present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. The unreserved fund balance is a measure of resources available to be spent.

General & Cumulative Reserve Funds

The **General Fund 001** is the primary operating fund of the City. It accounts for all financial resources and transactions except those required to be accounted for in another fund. This fund accounts for expenditures incurred by the council, the municipal court, the executive department, the finance department, the legal department, the community development department, police, fire, parks and recreation, library, engineering and the public safety building. Its primary revenues are taxes and other charges including charges for services provided by individual departments to other funds. In a separate fund **Cumulative Reserve Fund 005**, money is reserved for future capital needs.

Special Revenue Funds

These funds account for revenues derived from specific taxes, grants, or other sources which are designated to finance particular activities of the City. The **Street Fund 101** provides for road maintenance and its revenues are shared sales tax with the General Fund and shared gas tax from the State of Washington. The **Arterial Street Fund 102** provides for all of the street overlay projects. The **Drug Enforcement Fund 103** accounts for money and assets seized in illegal drug trafficking. These resources are to be spent on enhancing drug enforcement. The **Tribal Gaming Fund 104** accounts for funds provided by the Tulalip Tribes to the City for the impacts of gambling activities on local law enforcement. The **Hotel/Motel Tax Fund 105** accounts for tourism promotion funds collected by the Hotel/Motel tax. The **Marysville Technology Infrastructure Fund 108** was established in 2004 to account for the fees collected in association with the cable franchise agreement. The **Community Development Block Grant (CDBG) Fund 109** was established to receive and administer federal grant funds associated with the CDBG program. The **Ken Baxter Community Center Appreciation Fund 106** accounts for private donations to support the Community Center. The **REET Funds 110 and 111** are reserved for the receipt and transfer of real estate excise taxes to the appropriate capital project funds. The **Transportation Benefit District Fund 114** was established to collect the .2% voted increase in sales tax which is used to fund ongoing street preservation projects

Debt Service Funds

These funds account for the accumulation of resources to pay principal, interest and related costs on certain general long-term debt. The debt service funds include the **LTGO Bonds and PWTFB Debt Fund 206** which pays debt on the purchase and remodel of the new City Hall, Public Safety Building remodel, State Avenue renovation project, the Waterfront Park project, the Courthouse and other City properties as well as debt service on bond issues providing funding for a number of street construction projections. The **LID 71 Fund 271** was established to collect the payments assessed on the properties within the boundaries of the LID and to make the annual debt service payment. The **LID Guaranty Fund 299** carries reserves funded by assessments and would be used only in the case of a LID assessment default. **The City does not budget for this fund.**

Capital Projects Funds

These funds account for financial resources which are designated for the acquisition or construction of general government capital improvements. **Fund's 305 & 310** account for major street and park capital improvements. Revenue sources are real estate excise tax and mitigation fees. **Fund LID 371 – 156th**

Overpass was established to account for the design and construction costs associated with the LID portion of this project.

PROPRIETARY FUND TYPES:

Proprietary funds are accounted for on a cost of services or “capital maintenance” measurement focus. This means that all assets and all liabilities (whether current or non-current) associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund operating statements present increases (revenues and gains) and decreases (expenses and losses) in net total assets. Proprietary funds disclose cash flows by a separate statement that presents their investing and financing activities.

Enterprise Funds

These funds account for operations that provide goods or services to the general public and are supported primarily through user charges (or where the governing body has decided that periodic determination of net income is needed). **Fund 401 Water/Sewer/Surface Water Operations** accounts for billed water, sewer services and surface water. Its revenues pay for maintenance and operation of the water and sewer system. **Fund 402** accounts for major water/sewer system capital improvements and capital improvements for surface water drainage. The revenue for this fund comes from water and sewer capital improvement charges. The **Solid Waste Fund 410** provides solid waste collection services and is funded by user fees. **Fund 420, Cedarcrest Golf Course** provides golf recreation and is funded by user fees. **Fund 450 Waterworks Debt Service** accounts for water/sewer debt service and is funded through transfers from Fund 401.

Internal Service Funds

These funds account for operations that provide goods or services to other departments or funds of the city or to other governmental units on a cost-reimbursement basis. **Fund 501, Fleet Services** is funded by interfund service charges for maintenance and replacement of the City's vehicles. **Fund 502, Facilities Maintenance** is funded by interfund charges for building maintenance. **Fund 503, Information Services** is funded by an interfund charge to all using departments for computer support and equipment replacement.

FIDUCIARY FUND TYPES:

Fiduciary funds account for assets held by the city on behalf of individuals, private organizations, other governments, and other funds. **The city does not budget for Fiduciary Funds.**

Expendable Trust Funds

These funds earn revenue and make expenditures on behalf of the parties for which a trust was established. The entire income and principal of an expendable trust may be disbursed in the course of its operations; accordingly, expendable trust funds are accounted for in essentially the same manner as governmental funds. **The city does not have any expendable trust funds.**

Non-expendable Trust Funds

These funds earn revenue on behalf of the parties for which the trust was established, but the principal of the trust must remain intact. Non-expendable trust funds are accounted for in essentially the same manner as proprietary funds, since capital maintenance is a primary consideration. **The city does not have any nonexpendable trust funds.**

Agency Funds

These funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

FLOW OF FUNDS STRUCTURE

BUDGET VS. ACCOUNTING BASIS

ACCOUNTING: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. The Comprehensive Annual Financial Report (CAFR) reports the status of the City's finances in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The accrual basis of accounting is used for all funds except the governmental fund types, expendable trust funds and agency funds, which use the modified accrual basis of accounting.

The modified accrual basis differs from the accrual basis in the following ways:

1. Purchases of capital assets are considered expenditures.
2. Redemptions of long-term debt are considered expenditures when due.
3. Revenues are recognized only when they become both measurable and available to finance expenditures of the current period. Revenues that are measurable but not available are recorded as receivable and offset by deferred revenues.
4. Inventories and prepaid items are reported as expenditures when purchased.
5. Interest on long-term debt is not accrued but is recorded as an expenditure when due.
6. Accumulated unpaid vacation and sick pay and other employee benefits are considered expenditures when paid.
7. Depreciation is recorded on an accrual basis only.

BUDGET BASIS: The Governmental Fund types (i.e., the General Fund, Special Revenues, Debt Service, and Construction Fund) are budgeted on a modified accrual basis and can be directly compared to the fund operating statements in the City annual report. The Proprietary fund types are budgeted on a modified accrual basis and are depicted in the annual report using an accrual basis; therefore, these funds are not directly comparable between the two reports.

DEPARTMENT BUDGET NARRATIVES

Each department in the City is responsible for preparing budget narratives for all of the funds that the department manages. Although the budget narratives are presented in a fund number order, the Council budget hearings are scheduled by department. Below is a list of all of the departments and the funds that belong to each.

FUND	FUND NAME	DEPARTMENT HEAD
001.01	Council	Chief Administrative Officer
001.02	Municipal Courts	Court Administrator
001.03	Executive	Chief Administrative Officer
001.04	Finance	Finance Director
001.05	Legal	Chief Administrative Officer
001.06	Human Resources	HR Director
001.07	Community Development	Community Development Director
001.08	Police	Police Chief
001.09	Fire	Finance Director
001.10	Parks	Parks Director
001.11	Engineering	Public Works Director
001.12	Library Facility	Public Works Director
001.13	Public Safety Building	Police Chief
001.99	Non-Departmental	Finance Director
005	General Cumulative Reserve	Finance Director
101	Streets	Public Works Director
102	Arterial Streets	Public Works Director
103	Drug Enforcement	Police Chief
104	Tribal Gaming	Police Chief
105	Hotel/Motel Tax	Finance Director
106	Baxter Center Appreciation	Parks Director
108	I/Net	Communications Officer
109	Community Development Block Grant	Chief Administrative Officer
110	GMA REET I	Finance Director
111	GMA REET II	Finance Director
114	Transportation Benefit District	Finance Director
206	Debt Service	Finance Director
271	LID 71 Debt Service	Finance Director
305	GMA-Streets	Public Works Director
310	GMA-Parks	Parks Director
401	Waterworks Utilities	Public Works Director
402	Utility Construction	Public Works Director
410	Solid Waste	Public Works Director
420	Golf Course Operations	Parks Director
450	Utility Debt Service	Finance Director
501	Fleet Services	Public Works Director
502	Facilities Maintenance	Public Works Director
503	Information Services	Finance Director

BUDGET POLICIES

Strategic Planning

The City of Marysville employs a strategic budgeting model that allows policies to be formulated and tested in a budgetary context spanning a period of five years. The strategic model demonstrates the City's ability to accomplish long-term goals by showing the consequences of any given budget decision. Virtually all new General Government services are "tested" within the framework of the strategic budget model prior to implementation. In this manner, policy makers can examine the probable long-term outcome of many possible decisions and select the one that serves the interests of Marysville's citizens most effectively.

The Strategic outlook identifies fund balances, revenue patterns, and expense trends which are subject to constant change. The Strategic Outlook does not illustrate future budgets, services, or programs in any detail. The dynamic nature of local government, as well as historical precedent, suggest that even the current year's Operating Budget will be altered several times before the close of the year.

Fund Balance Policy

Fund Balance is defined as the excess of assets over liabilities, which is an unreserved, undesignated resource that remains part of the General Government budget. The City desires to maintain a prudent level of financial resources to guard its citizens against service disruption in the event of unexpected temporary revenue shortfalls or unpredicted one-time expenditures. The Fund Balance has been accumulated to meet this purpose, to provide stability and flexibility to respond to unexpected adversity and/or opportunities.

General Fund Balance: It is the policy of the City to establish and maintain a General Fund Balance of at least ten percent (10%) of the total General Fund budgeted revenue, excluding the beginning fund balance and identified one-time revenues. Any and all expenditures from the General Fund Balance Reserve account shall require a super majority vote of the entire City Council.

Balancing the Operating Budget

RCW 35.33.07 requires that the City adopt a balanced budget based on the following requirement: *"Appropriations shall be limited to the total estimated revenues contained therein including the amount to be raised by ad valorem taxes and the unencumbered fund balances estimated to be available at the close of the current fiscal year."*

The City adopts a *statutorily* balanced budget, but also seeks to adopt a *structurally* balanced budget. A budget is statutorily balanced when total estimated resources (beginning fund balance plus revenues) equal the total appropriation (expenditures plus ending fund balance). In a statutorily balanced budget, beginning fund balance may be used as a revenue source. In contrast, in a *structurally* balanced budget, the total expenditure appropriation is limited to the annual estimated revenues. In a structurally balanced budget, beginning fund balance may not be used as a revenue source.

It is not uncommon for cities to rely upon the beginning fund balance as a "revenue" source. But, as previously stated, it is Marysville's strategic goal to attain structural balance, thereby eliminating reliance on these funds to supplement current income. Any uncommitted operating surpluses (revenues that exceed expenditures) that occur at year-end may be held in reserve or reappropriated to a capital reserve, long term obligation, or debt service fund, rather than used as a supplemental source of revenue required to balance the budget each year.

It is the intent of this policy that the budget be structurally balance (a) at the time of adoption, (b) throughout the budget year.

In the event that adjustments are necessary to bring the budget into balance in the course of the fiscal period, the administration will bring a budget amendment forward for approval by the City Council.

ASSET POLICIES

Cash Management

It is the policy of the City of Marysville to invest all of its surplus funds to maximize yield while preserving security of principal and meeting the city's cash flow requirements.

Funds of the City will be invested in accordance with the RCW 35.39, these policies and written administrative procedures. The City's investment portfolio shall be managed in a manner to attain a market rate of return throughout budgetary and economic cycles while preserving and protecting capital in the overall portfolio.

Funds held for future capital projects (i.e., bond proceeds), shall, whenever possible, be invested to produce enough income to offset increases in construction costs due to inflation. Where possible, prepayment funds for long-term debt service shall be invested to ensure a rate of return at least equal to the interest being paid on the bonds.

LIABILITY POLICIES

Debt Management Policy

The Debt Policy for the City of Marysville (City) is established by Resolution 2348 to help ensure that all debt is issued both prudently and cost effectively. The Debt Policy sets forth guidelines for the issuance and management of all financings of the City. Adherence to the policy is essential to ensure that the City maintains a sound debt position and protects the credit quality of its obligations while providing flexibility and preserving financial stability.

1.0 Uses of Debt

1.1 City of Marysville uses debt as a mechanism to equalize the costs of needed capital improvements for the benefit of both present and future citizens;

1.2 City of Marysville uses debt as a mechanism to reduce the immediate costs of substantial public improvements.

1.3 The City of Marysville will not use long-term debt to support current operations.

1.4 Non-capital furnishings, supplies, and personnel will not be financed from bond proceeds.

1.5 Interest, operating, and/or maintenance expenses may be capitalized for enterprise activities; and will be strictly limited to those expenses incurred prior to actual operation of the facilities.

1.6 Interest may be capitalized for general activities when necessary to align timing of new revenues with debt service, or to avoid duplicative expenditures (i.e., rent and bond payments) when providing for replacement facilities.

2.0 Debt Limits

2.1 Legal Limits:

2.1.1 The general obligation debt of Marysville will not exceed an aggregated total of 7.5% of the assessed valuation of the taxable property within the City. RCW 39.36.020 2.1.2

The following individual percentages shall not be exceeded in any specific debt category:

- General Debt - 2.5% of assessed valuation
- Non-Voted 1.5% Limited Tax General Obligation (LTGO) Bonds
- Voted 2.0% Unlimited Tax General Obligation (UTGO) Bonds
- Utility Debt - 2.5% of assessed valuation
- Open Space and Park Facilities - 2.5% of assessed valuation

2.2 Public Policy Limits:

2.2.1 The City will establish and implement a comprehensive multi-year Capital Improvement Program (CIP).

2.2.2 Financial analysis of funding sources will be conducted for all proposed capital improvement projects.

2.2.3 Debt will be issued in accordance with the CIP as necessary.

2.2.4 Where borrowing is recommended, the source of funds to cover debt service requirements must be identified.

2.3 Financial Limits:

2.3.1 The City's policy is to plan and direct the use of debt so that debt service payments will be a predictable and manageable part of the Operating Budget.

2.3.2 The City will conduct a debt affordability analysis to evaluate the City's ability to support debt. The analysis will review available resources for the amount of debt the City can initiate each year, and project the effects of that financing through six years of the CIP.

3.0 Allowable Types of Debt

3.1 Short Term Obligations: Short-term borrowing will only be used to meet the cash flow needs of a project for which long-term financing has been approved but not yet secured. The City may issue interfund loans rather than outside debt instruments to meet short-term cash flow needs. Interfund loans will be permitted only if an analysis of the affected fund indicates excess funds are available and the use of the funds will not impact the fund's current operations. All interfund loans will be subject to Council approval, will bear interest based upon prevailing rates and have terms consistent with state guidelines for interfund loans.

3.2 Assessment/ LID Bonds: Assessment bonds will be considered in place of general obligation bonds, where possible, to assure the greatest degree of public equity. Local Improvement District (LID) Bonds represent debt that is repaid by the property owners who benefited from the capital improvement through annual assessments paid to the City. LID's are formed by the City Council after a majority of property owners agree to the assessment.

3.3 General Obligation Bonds Limited Tax: General Obligation debt is backed by the full faith and credit of the City and is payable from General Fund revenues and taxes collected by the City. Limited Tax General Obligation (LTGO) Bonds can be issued with the approval of the City Council and will only be issued if: A project requires funding not available from alternative sources; Matching fund monies are available which may be lost if not applied for in a timely manner; or Emergency conditions exist.

3.4 General Obligation Bonds Unlimited Tax: Unlimited Tax General Obligation (UTGO) Bonds are payable from excess tax levies and is subject to voter approval by 60% of the voters. UTGO Bonds will be used for projects with broad community impact and appeal, and when the excess tax levy is necessary and appropriate for payment of the debt service, subject to voter approval.

3.5 Revenue Bonds: Revenue bonds are used to finance construction or improvements to facilities of enterprise systems operated by the City in accordance with the Capital Improvement Program and are generally payable from the enterprise. No taxing power or general fund pledge is provided as security. Unlike general obligation bonds, revenue bonds are not subject to the City's statutory debt limitation nor is voter approval required.

3.6 Leases: Lease purchase or financing contracts are payment obligations that represent principal and interest components which are general obligations of the City. Leases will be considered only after comparison of the overall borrowing cost with alternatives, such as interfund loans or general obligation bonds.

3.7 Other Loan Programs:

3.7.1 Public Works Trust Fund Loans are loans from the Public Works Board, authorized by state statute, RCW 43.155 to loan money to repair, replace, or create domestic water systems, sanitary sewer systems, storm sewer systems, roads, streets, solid waste and recycling facilities, and bridges.

3.7.2 The Local Option Capital Asset Lending (LOCAL) Program is a financing contract with the Office of the State Treasurer under RCW 39.94. It is an expanded version of the state agency lease/purchase program that allows pooling funding needs into larger offerings of securities. This program allows local government agencies the ability to finance equipment needs through the State Treasurer's office, subject to existing debt limitations and financial consideration.

3.7.3 Other state funded programs.

3.8 Alternative types of debt: No variable-rate debt or derivative products shall be utilized.

4.0 Debt Structuring Practices

4.1 Maximum term, Payback Period and Average maturity:

4.1.1 The issuance of bonds shall be financed for a period not to exceed a conservative estimate of the asset's useful life with the average life of the bonds less than or equal to the average life of the assets being financed.

4.1.2 General Obligation bonds will be issued with maturities of 20 years or less unless otherwise approved by Council. The maximum term for general obligation bonds shall be 30 years.

4.1.3 The maturity of all assessment bonds shall not exceed statutory limitations. RCW 36.83.050.

4.2 Debt Service Structure:

4.2.1 Unless otherwise justified and deemed necessary, debt service should be structured on a level or declining repayment basis.

4.3 Criteria for issuance of advance refunding and current refunding bonds

4.3.1 The City will use refunding bonds, where appropriate, when restructuring its current outstanding debt. A debt refunding is a refinance of debt typically done to take advantage of lower interest rates. Unless otherwise justified, such as a desire to remove or change a bond covenant, a debt refunding will not be pursued without a sufficient net present value benefit after expenses. Generally, the City may undertake refinancing with net present value savings are 3.5 to 5.0% of the par amount of the bonds to be refunded. For current refunding (i.e., refunding in which the outstanding bonds will be called within 90 days of the refunding), the savings threshold may be lower.

4.4 Other structuring practices:

4.4.1 Bond amortization schedules will be structured to minimize interest expense with the constraints of revenues available for debt service. The bonds should include call features to maximize the City's ability to advance refund or retire the debt early. However, call features should be balanced with market conditions to ensure that the total cost of the financing is not adversely affected.

5.0 Debt Issuance Practices

5.1 Council Approval: City Council approval is required prior to the issuance of debt.

5.2 Analytical Review: An analytical review shall be conducted prior to the issuance of debt including but not limited to, monitoring of market opportunities and structuring and pricing of the debt.

5.3 Use of credit ratings, minimum bond ratings, determination of the number of ratings and selection of rating services: The City will continually strive to maintain its bond rating by improving financial policies, budget, forecasts and the financial health of the City so its borrowing costs are minimized and its access to credit is preserved. The City will maintain good communication with bond rating agencies about its financial condition, coordinating meetings, and presentations in conjunction with a new issuance as necessary.

5.4 Compliance with Statutes and Regulations: The Finance Director, City Attorney and bond counsel shall coordinate their activities and review all debt issuance to ensure that all securities are issued in compliance with legal and regulatory requirements by the State of Washington and the Federal Government's laws, rules and regulations.

5.5 Selection and use of professional service providers:

5.5.1 The City's Finance and Administration Department shall be responsible for the solicitation and selection of professional services that are required to administer the City's debt program.

5.5.2 Bond Counsel: All debt issued by the City will include a written opinion by bond counsel affirming that the City is authorized to issue the proposed debt. The opinion shall include confirmation that the City has met all city and state constitutional and statutory requirements necessary for issuance, a determination of the proposed debt's federal income tax status and any other components necessary for the proposed debt.

5.5.3 Financial Advisor: A Financial Advisor(s) may be used to assist in the issuance of the City's debt. The Financial Advisor will provide the City with the objective advice and analysis on debt issuance. This includes, but is not limited to, monitoring of market opportunities, structuring and pricing of debt, and preparing official statements of disclosure. The City's Financial Advisor may not participate in underwriting of the City's bonds.

5.5.4 Underwriters: An Underwriter(s) will be used for all debt issued in a negotiated or private placement sale method. The Underwriter is responsible for purchasing negotiated or private placement debt and reselling the debt to investors. The Underwriter may not serve as Financial Advisor to the City.

5.5.5 Fiscal Agent: A Fiscal Agent will be used to provide accurate and timely securities processing and timely payment to bondholders. In accordance with RCW 43.80, the City will use the Fiscal Agent that is appointed by the State.

5.6 Criteria for determining sales method and investment of proceeds:

5.6.1 The Director of Finance shall determine the method of sale best suited for each issue of debt.

5.6.2 The City will generally issue its debt through a competitive process. For any competitive sale of debt, the City will award the issue to the underwriter offering to buy the bonds at a price and interest rates that provides the lowest True Interest Cost (TIC).

5.6.3 The City will provide for the sale of debt through a negotiated process (i.e., negotiating the terms and conditions of sale) when necessary to minimize the cost and risks of borrowing under the following conditions:

- The bond issue is, or contains, a refinancing that is dependent on market/interest rate timing.
- At the time of issuance, the interest rate environment or economic factors that affect the bond issue are volatile.
- The nature of the debt is unique and requires particular skills from the underwriter(s) involved.
- The debt issued is bound by a compressed time line due to extenuating circumstances such that time is of the essence and a competitive process cannot be accomplished.

5.6.4 The City may consider a direct placement with a bank when it is expected to provide a reduced cost of capital, market conditions are such that the City will benefit from locking in an interest rate, and/or the timing is of the essence and can best be met through a placement without adding significant costs.

5.7 Bond Insurance: For each issue, the City may evaluate the costs and benefits of bond insurance or other credit enhancements. Any credit enhancement purchases by the City shall be competitively procured and evaluated by the City's financial advisor.

6.0 Debt Management Practices

6.1 Investment of Bond Proceeds: The City shall comply with all applicable Federal, State and contractual restrictions regarding the investment of bond proceeds, including City of Marysville Investment Policy.

6.2 Continuing Disclosure: The City shall provide annual disclosure information to established national information repositories and maintain compliance with disclosure statements as required by state and national regulatory bodies. Disclosure shall take the form of the Comprehensive Annual Financial Report (CAFR) unless information is required by a particular bond issue that is not necessarily contained within the CAFR.

6.3 Arbitrage Rebate monitoring and filing: The City will, unless otherwise justified, use bond proceeds within the established time frame pursuant to the bond ordinance, contract or other documents to avoid arbitrage. Arbitrage is the interest earned on the investment of the bond proceeds above the interest paid on the debt. If arbitrage occurs, the City will follow a policy of full compliance with all arbitrage rebate requirements of the federal tax code and Internal Revenue Service regulations, and will perform (internally or by contract consultants) arbitrage rebate calculations for each issue subject to rebate. All necessary rebates will be filed and paid when due in order to preserve the tax-exempt status of the outstanding debt.

6.4 Federal and state law compliance practices: Discussed in Debt Issuance Practices sections 5.3 and 5.4 and Debt Management Practices sections 6.1 and 6.3.

6.5 Market and investor relations efforts: The City shall endeavor to maintain a positive relationship with the investment community. The City shall communicate through its published Budget, Capital Improvement Program and Comprehensive Annual Financial Statements the City's indebtedness as well as its future financial plans.

6.6 Periodic review: The City's debt policy shall be adopted by City Council. The policy shall be reviewed every four years by the Council Finance Committee and modifications shall be submitted to and approved by City Council.

REVENUE POLICIES

General Revenue Policies

Revenue forecasts will be neither overly optimistic nor overly conservative. They will be as realistic as possible based on the best available information. Should economic downturns develop which could result in revenue shortfalls or fewer available resources, the City will make adjustments in anticipated expenditures to compensate.

Deficit financing and borrowing to support on-going operations will play on part in the City's responses to revenue shortfalls. Expenses will be reduced to conform to the long-term revenue forecast. Interfund loans are permissible to cover temporary gaps in cash flow.

Revenue Shortfall Policy

To ensure that service levels are maintained to meet the basic needs of the citizens during fluctuations in the economy, the City adopted through Resolution 2349 a Revenue Shortfall Policy. The policy establishes a tiered system of actions for different levels of revenue shortfalls where reserves are anticipated to be used.

Level I – Reserve reduction 1% but less than 10%

- Delay expenditures where possible
- Departments monitor budget to ensure only essential expenditures
- Council may consider delaying/post-pone capital improvement projects

Level II – Reserve reduction in excess of 10% but less than 25%

- Implement a status quo budget (same level as prior year)
- Intensify the review process for large expenditures
- Review vacant position for possible delay or use temporary hire

Level III – Reserve reduction in excess of 25% but less than 50%

- Require justification for large expenditures
- Defer capital expenditures
- Reduce CIP where appropriate
- Hire vacant positions only with special justification and authorization
- Close monitoring of expenditures, reduce travel and training

Level IV – Reserve reduction in excess of 50% but less than 100%

- Implement hiring freeze

- Reduce temporary work force
 - Defer wage increases
 - Further reduction of capital expenditures
 - Prepare a strategy for reduction in workforce
- Level V – Reserve reduction at 100% and potential for a deficit is present
- Implement reduction in workforce strategy
 - Eliminate programs
 - Eliminate capital improvements and expenditures

Fees and Charges

User fees will be imposed to cover the cost of services provided for unique or narrow segments of the community. Fees may be set at levels sufficient to cover the entire cost of service delivery, or the service may be subsidized as Council deems necessary.

The City will continuously maintain its sewer and water distribution and collection systems. To insure that the enterprise funds remain self-supporting, rate structures will fully fund the direct and indirect costs of operations, capital plan maintenance, debt service, depreciation, and moderate system extensions.

One-Time Revenues

All potential grants shall be carefully examined for matching requirements. Some grants may not be accepted if the local matching funds cannot be justified. Grants may also be rejected if programs must be continued with local resources after grant funds are exhausted.

EXPENDITURE POLICIES

General Expenditure Policies

High priority is given to expenditures that will reduce future operating costs, such as increased utilization of technology and equipment and proven business methods.

An appropriate balance will be maintained between budget dollars provided for direct public service and dollars provided to assure good management and legal compliance.

Before the City undertakes any agreements that would create fixed ongoing expenses, the cost implications of such agreements will be estimated by current and future years with the aid of our strategic financial planning models.

Organizations that are not part of the City, but which receive funding from the City, shall not have their appropriation carried forward from year to year unless contractually authorized and directed by City Council. Annual review and reauthorization of funding is required.

All externally mandated services for which full or partial reimbursement is available will be fully allocated out to allow for recovery of expenses. The estimated direct costs of service will be budgeted and charged to the fund performing the service. Interfund service fees charged to recover these direct costs will be recognized as revenue to the providing fund.

Operating/Capital Expenditure Accountability

It is the City's policy to compare actual expenditures to budget, generally on a monthly basis. General government funds, capital funds and other funds are all analyzed periodically. If necessary, actions are taken to bring the budget into balance.

Infrastructure

GASB 34 established new reporting requirements for state and local governments which include recording and reporting infrastructure assets of the general government. The threshold for capitalizing infrastructure has been set at \$300,000 in concurrence with the dollar amount used to determine the difference between small and large contracts as defined in the Purchasing Policy (revised Resolution 2327, 7/9/12).

The City capitalizes the costs associated with new infrastructure which includes development, construction, improvements, restoration and rehabilitation, and preservation which includes repair/preserve, replace and resurface. General maintenance and repairs to the infrastructure are not capitalized.

Capital Improvements

Capital Improvements are any expenditure of public funds for the purchase, construction, rehabilitation, replacement or expansion of the physical assets of the city when the project is relatively large in size, expense-over \$5,000, long-term and permanent. Capital expenditures are financed from a variety of sources to include current revenues, long-term and short-term debt, and for one-time capital purchases, the fund balance can be used.

The following is a list of capital improvements that has been authorized in the budget.

CAPITAL IMPROVEMENT BY FUND

2015 Capital Improvement Program	General Government	Construction Funds	Enterprise Funds	Internal Service	Total
<u>Streets</u>					
Pedestrian Safety System	15,000	-	-	-	15,000

**Fund 001
City Council**

Mission Statement

The mission of the City Council is to provide the City of Marysville with both policy and legislative direction for current & future needs.

Function

The Marysville City Council is elected to serve a term of four years, with one member selected each year to serve as Mayor Pro Tem. The Mayor Pro Tem fills in where needed in the Mayor's absence.

The City Council is responsible for establishing policy for the City. They approve the City's annual operating budget, all ordinances, resolutions, contracts, fees and programs. The City Council conducts work sessions (workshops) on the first Monday of each month, and then holds regularly scheduled meetings to take action on work session items the second and fourth Monday. Council does not meet during the month of August.

Budget Narrative

Salaries in this department include 50% of the City Council member's annual salary. The remaining 50% is charged out to the Utility Fund. Salaries for the City Council are based on the pay structure outlined in MMC 2.50.050.

Office and operating supplies include general office supplies used by the council and associated with the preparation of the council agenda and packets.

Travel and miscellaneous expenses include costs associated with the annual council/staff retreat. It also covers travel expenses to local business meetings and out of area conferences.

MUNICIPAL COURT

Fund 001 Municipal Court

Mission

The mission of the Marysville Municipal Courts is to provide ready access to justice, exercise expedience, timeliness, equality, fairness and integrity. To show independence, accountability, radiate trust and confidence to the public.

Function

Marysville Municipal Courts adjudicates all criminal misdemeanor and gross misdemeanor cases filed by the City of Marysville Police Department resulting from crimes committed within the city limits of Marysville. The City also has interlocal agreements with Lake Stevens and Arlington to adjudicate all criminal misdemeanor and gross misdemeanor cases that are committed within their city limits.

EXECUTIVE DEPARTMENT

**Fund 001
Executive Department
Administration**

Mission

The Executive Department's mission is to administer City business in an efficient, ethical and legal manner.

Function

Executive Administration includes the Mayor, Chief Administrative Officer (CAO), Community Information Officer, Risk Management Officer, and Executive Assistant to the Mayor. The City of Marysville is a Council Mayor form of Government. The Mayor who serves full time, presides over all meetings of the Council and is recognized as the head of the City for ceremonial purposes. The City Council appoints the CAO, who is responsible for the efficient, ongoing day-to-day operations of all City services set forth by the Council. The CAO also works closely with the Mayor and Council to assist them in formulating policies and programs.

Thirty-Eight percent of the Executive department's budget is allocated out to benefitting operating units based on the number of council agenda items and on the fund activity of each of the operating units. For 2015 the 38% is allocated as follows: Streets 15%, Utilities 58%, Solid Waste 12%, Golf 7%, Fleet 4%, and Facilities 4%.

FINANCE DEPARTMENT

Information Services budget reported in the Internal Service funds – Fund 503.

**Fund 001
Finance Department
Accounting**

Mission

The mission of the Accounting department is to provide accurate and timely financial services and information both internally and externally, while fostering an environment of integrity and teamwork.

Function

The Finance department coordinates and prepares the City's annual budget. In addition, this department is responsible for annual financial reporting and audit support, cash management, accounts payable, payroll, general invoicing, maintains and monitors capital asset inventory, maintains the books of account for all funds, prepares regulatory reports including excise & leasehold tax returns, state & federal payroll tax reports and unclaimed property reports and performs all major account reconciliation, including A/P, payroll, cash and capital assets. Fifty percent of the department's budget is allocated out to benefiting departments based on percent of total city budget. The allocation breakdown for 2015 is: Streets 11%, Utilities 65%, Solid Waste 16%, Golf 4%, Fleet Maintenance 4% and Facilities Maintenance 1%.

Headcount

POSITION CLASSIFICATION	2014	2015	2016

LEGAL DEPARTMENT

**Fund 001
Legal Services**

Function

In 2015, the City added an in-house Legal Department, adding a full-time City Attorney, Deputy City Attorney and a Confidential Administrative Assistant. The newly formed Legal department will provide legal advice and service to the Mayor, CAO, city council, city boards, commissions and departments. This includes advising the City regarding new Federal and State legislation. Additionally, the City Attorney prepares and/or reviews all ordinances, resolutions and agreements and oversees the prosecution function.

The City Attorney represents the City in a wide variety of litigation matters, including but not limited to defending the City against claims not covered by the City's liability insurance.

City Prosecutor services include prosecution of civil and criminal matters related to violations of the Marysville Municipal Code, including misdemeanor, gross misdemeanor, and traffic infraction violations that occur within the Marysville City limits.

COMMUNITY DEVELOPMENT

Fund 001 Community Development

Mission

The mission of the Community Development department is to create a vibrant Marysville by promoting economic growth and healthy neighborhoods while protecting our natural environment.

Function

The Community Development department is responsible for the preparation, administration and implementation of land use plans, proposals, policies and codes that guide and regulate the physical development of the City. Department functions include land use planning, development reviews and inspections, building review and inspections, code enforcement, and business licenses.

Police Patrol

Function

The Operations Division provides police services 24 hours a day, seven days a week. Patrol is staffed by six sergeants and 29 officers, which are divided into six squads. The Patrol Division responds to crimes in progress, calls for service and proactive law enforcement.

Headcount

POSITION CLASSIFICATION	2014	2015	2016
Sergeant	6	6	6
Patrol Officers	29	29	29
TOTAL - PATROL	35	35	35

Changes

One additional Patrol officer was added during the 2014 budget process.

Budget Narrative

Supplies include the purchase of general office supplies, fuel for the patrol vehicles and small dollar equipment purchases.

Professional services include towing fees and membership fees to the National Polygraph Association.

Communication includes the land lines, long distance and Nextel service charges.

Travel includes reimbursement for mileage and travel expenses for local and out of area meetings, training and conferences.

Operating rental includes copy machine.

Repairs and maintenance includes costs for washing the patrol cars and costs for calibrating the radar equipment.

Interfund repairs and maintenance include the allocation from Fleet for the vehicles assigned to patrol.

Other interfund services include the cost allocation from Information Services (IS) for computer maintenance and equipment replacement.

K9 Program**

Function

The Patrol Division is supported with three K-9 teams of dogs and handlers. Two tracking canines are utilized for the purpose of apprehending criminals and/or locating evidence associated with crimes that have occurred. One narcotics canine is utilized for the interdiction and discovery of narcotics and drug related instruments. All three K-9 teams engage the public through education demonstrations, including public appearances at local schools. All told the teams have apprehended many criminals and been responsible for solving crimes and removing drugs and guns from the streets of Marysville.

Fund 001
Police Department
Youth Services

Function

The Marysville Police Department assigns full-time officers to Marysville Junior High School. SRO's serve as liaisons between the Police Department, the School District and the Citizens of Marysville, Washington. The SRO's first duty is that of a sworn police officer, investigating crimes and activities associated with criminal behavior. SRO's are not "campus police," but rather "police on campus" who promote a positive image through interaction with students, parents, teachers and administrators. The intent of the SRO program is to establish a positive problem-solving partnership by working very closely with school officials, students and citizens.

The primary responsibility of the SRO is to deal with all law enforcement problems that arise within the school or the school's jurisdiction. The SRO investigates crimes and makes arrests when appropriate.

The primary consideration for the SRO is to promote a safe environment in the school, and surrounding neighborhoods. The SRO also functions as a guest speaker as well as a teacher in the classroom, covering such issues as drug abuse, laws, and other related topics.

The SRO program is currently only in Marysville Jr. High. It's the hope of the Marysville Police Department and Marysville School District that we will be able to expand this program into Cedarcrest Jr. High as well.

Crime Prevention

Function

The function of this budget is to track the expenses associated with Criminal Justice and Domestic Violence programs. Fines are assessed and received through the Marysville Municipal Court. Fines collected have to be used exclusively for “criminal justice purposes” and cannot be used for general operations of the Police department. Criminal justice purposes include activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates.

Budget Narrative

Expenditures in this area include but are not limited to, fees for Legal Advocacy Services, supplies in support of the Marysville Volunteer’s Program (MVP) and payments to the County in support of the Battered Women’s Shelter.

Fund 001
Police Department
Communications

Function

Communications is contracted to SnoPac. SnoPac provides radio and mobile computer terminal access for police operations. SnoPac is an enhanced E-911 center. It utilizes a Computer Assisted Dispatching System and Records Management System. Marysville contracts for an exclusive police terminal, which is not shared with other agencies. Through SnoPac, Marysville has the ability to communicate with other Snohomish County, local and regional law enforcement agencies.

Budget Narrative

Intergovernmental services are the fees paid to SnoPac for dispatching services. The increase in this budget is due to the annexation.

Pro-Act N.I.T.E. Team

Function

The NITE Team consists of one sergeant and four officers whose mission is to address, through aggressive enforcement, identified priority crime and livability issues throughout the city and community neighborhoods. Their mission is clearly spelled out in the Team's acronym NITE: Neighborhood Livability, Investigations, Targeted enforcement, Education. The NITE Team has been instrumental in suppressing crime, most notably violent and drug related crime, throughout the city of Marysville.

Fire Services**

Function

The City of Marysville merged its EMS (Emergency Medical Service) and Fire Protection with Snohomish County Fire District 12. The City provides proportional financial support to the Fire District per an interlocal agreement. Three of the City's council members serve on the seven member fire commission.

Budget Narrative

Intergovernmental services are the costs of fire services paid to the fire district. Payments are made monthly.

PARKS AND RECREATION

Fund 001
Parks & Recreation Department
Recreation

Mission

The mission of the Parks & Recreation department is to enhance the quality of life by providing beautiful parks, open space and exceptional recreational and athletic programs.

The Parks and Recreation Department provides stewardship and oversees the operation and maintenance of 436 acres of publicly owned land, parks, trails, public facilities and 152.8 acres of undeveloped land. Additionally, the department is charged with developing new park sites as well as maintaining all public building utility sites, landscapes and several miles of right-of-way streetscapes and habitat conservation areas. The department also supports a very comprehensive Recreation Services program within a service area exceeding 60,000 including senior services offered within the Ken Baxter Community Center, year round cultural arts, special events, youth and adult athletics, continuing education and physical activity programs.

Function

The Recreation Services division is responsible for programming efforts that embrace the entire community. Many of these programs remain the same year after year while others change due to trends and interests of our community. This division also supports community initiatives that make Marysville a more livable community. (Examples include Healthy Communities, Marysville Together Coalition, Council on Aging, Get Movin', Marysville Kids Matter and Safe Routes to school). This division works closely with facility scheduling with both the Marysville and Lakewood School Districts through coordinated interlocal agreements.

Headcount

Parks & Recreation Department
Ken Baxter Community Center

Function

The community center is part of the recreation division. The center houses recreational programs for people of all ages with a special emphasis on programming for adults. The center is staffed week days from 9-4 Monday-Thursday and from 9-12 on Fridays. The evening hours and weekends the building is open for specialty classes by instructors and is available for private rentals by the public. It is a gathering place for community members to recreate and provide a safe, comfortable, social setting.

Headcount

POSITION CLASSIFICATION	2014	2015	2016
Community Center Manager	1	1	1
Program Clerk	0.5	0.5	0.5
TOTAL - COMMUNITY CENTER	1.5	1.5	1.5

Budget Narrative

The City receives grant funds from the Snohomish County Department of Human Services to offset the cost of the part time program clerk.

Office and operating supplies include costs for special events held at the Community Center, and tours sponsored by the center which are partially or completely offset by fees. It also includes the janitorial and general office supplies.

Professional services include janitorial services, and fees paid to instructors for classes held at the center.

Costs of operating and maintaining the Ken Baxter Community Center are included in this budget.

Fund 001
Parks & Recreation Department
Park & Recreation Facilities

Function

The Park & Recreation Facilities division is responsible for the management and maintenance of all city parks, public buildings, street landscapes, greenbelts, trails, open space and utility landscape areas throughout the city. Duties include opening all parks, ensuring that facilities are safe and ready for park visitors, playground inspection and repair, mowing all turf areas, fertility and chemical application and management. We also partner with civic groups, volunteers, scouting groups, community service workers and others in projects that benefit the community.

**FUND 102
ARTERIAL STREETS****Function**

The Arterial Street Fund is for the purpose of construction, improvement or repair of arterial highways and city streets. In 2005, effective 2006 there was a change in the City Motor Vehicle Fuel Tax Distribution (SSB 5969, Ch 89, Laws of 2005). Cities had been receiving their gas tax in two separate distributions, "restricted" and "unrestricted". Cities with a population over 15,000 were required to deposit the restricted portion in an arterial city street fund to be used for capital purposes, while the unrestricted portion was deposited in the city street fund for maintenance. With the change in this law cities can now choose to deposit some of the receipts in an arterial street fund, but they are not required to do so. The City has chosen not to deposit MV Fuel Tax into the arterial street fund for the 2015 and 2016 budget cycles.

All pavement preservation projects will be charged to the 102 fund. The General Fund will contribute \$500,000 in 2015 towards the City's annual overlays. And the TBD will fund \$1,600,000 in pavement preservation projects in 2015 and 2016.

Budget Narrative

Overlays are planned in both 2015 and 2016.

**FUND 103
DRUG ENFORCEMENT FUND
Police**

Function

The Drug Enforcement fund was created in 1992 through Ordinance 1884 as set forth in MMC 3.97.030. The purpose of the fund is to accumulate funds from the sale of property seized during drug investigations and forfeited pursuant to RCW 69.50.505. Expenditures from this fund are for drug enforcement needs, drug awareness educational purposes and the purchase, lease and maintenance of equipment and other items necessary for drug enforcement.

**FUND 104
TRIBAL GAMING FUND
Police**

Function

The Tribal Gaming Fund was established in 1994 by Ordinance 1981 pursuant to MMC 3.90.020. The sources of funds include deposits pursuant to section 14C of the Tribal Compact for Class III Gaming between the Tulalip Tribes of Washington and the State of Washington. Such source of funds constitutes a percentage of the net win of the gaming stations conducted by the tribal gaming operation. Expenditures shall be limited to law enforcement purposes, being defined as those activities and the support of the police services set forth in Section 521.00 of the BARS manual.

**FUND 105
TOURISM DEVELOPMENT
Hotel/Motel Tax**

Function

The Tourism Development Fund was created in 1990 by Ordinance Number 1755 (MMC 3.93) pursuant to RCW 67.28.180 to account for the two percent tax levied on the sale of or charge made for the furnishing of lodging by a hotel, rooming house, tourist court, motel or trailer camp. The taxes collected are for the purpose of advertising, publicizing or otherwise distributing information for the purpose of attracting visitors and encouraging tourism.

Budget Narrative

Miscellaneous expense includes the expenses paid toward the promotion of tourism.

**FUND 110
GROWTH MANAGEMENT – REET 1**

Function

The Growth Management-REET1 fund accounts for the revenues and expenditures of the first quarter percent of the real estate excise tax or REET 1. These funds must be used for capital projects, which include planning, acquisition, construction, reconstruction, repair, replacement, rehabilitation, or improvement of streets, roads, highways, sidewalks, street and road lighting systems, traffic signals, bridges, domestic water systems, storm and sanitary sewer systems, parks, recreational facilities, law enforcement facilities, fire protection facilities, trails, libraries, and administrative and judicial facilities.

Budget Narrative

This budget includes the principal and interest payments on the interlocal debt issue for Marysville's portion of the 800 Mhz Project.

Transfer out includes a \$700,000 transfer to fund 305 for street construction projects in 2015 and 2016.

**FUND 111
GROWTH MANAGEMENT – REET 2**

Function

The Growth Management-REET 2 fund accounts for the revenues and expenditures of the second quarter percent of the real estate excise tax or REET 2. These funds must be used for capital projects which include planning acquisition, construction, reconstruction, repair, replacement, rehabilitation or improvement of streets roads, highways, sidewalks, street and road lighting system, traffic signals, bridges, domestic water systems, storm and sanitary sewer systems, and planning construction, reconstruction, repair, rehabilitation or improvements of parks.

Budget Narrative

Transfer out includes a \$800,000 transfer to fund 305 for street construction projects for 2015 and 2016.

FUND 114
TRANSPORTATION BENEFIT DISTRICT (TBD)

Function

The Marysville Transportation Benefit District (MTBD) was established through City ordinance 2928 in January 2014 pursuant to RCW 35.21.225 which grants cities the authority to establish such a district. The MTBD is governed by the Marysville City Council members acting in an ex-officio capacity and maintains no employees. MTBD's sole purpose is to finance the City's transportation improvements and although it is a legally separate entity, the operations of the MTBD are so closely related to those of the City that it will be reported as if it were part of the primary government in the Comprehensive Annual Financial Report.

In April 2014, the voters approved a .2% increase in sales tax which went into effect on October 1, 2014. The .2% increase in sales tax will be used for the purpose of ongoing transportation improvements that preserve, maintain and as appropriate, construct or reconstruct the transportation infrastructure of the City of Marysville. The .2% of sales tax is collected and posting into fund 114 and transferred to fund 102 where the expenditures for the projects approved by the MTBD board will be collected.

DEBT SERVICE FUNDS

FUND 206
LTGO BOND ISSUE 2007, 2010 and 2013

Function

In 2007 the City issued \$8.0M of LTGO bonds to provide funds with which to fund the cost of transportation projects throughout the City. The projects include reconstruction of primary corridors and construction of "missing links" within the City's current infrastructure.

In 2010, the City issued \$4.9M of LTGO bonds to purchase the Courthouse building which the City was leasing and the purchase of two other parcels. The bonds were issued in October 2010 with interest only payments through 2013.

In 2013, the City refunded the 2003 LTGO bond issue realizing a savings of \$132,164 in 2014. The original issue was to fund the purchase of the new city hall, the construction of the waterfront park, and the State Ave renovation project.

Also in 2013, the City issued \$9.0M of LTGO bonds for the City's share of the 156th overpass project and the Break-In-Access (BIA) project. The proceeds from this bond issue were used to pay off the Line of Credit that was used to fund the construction of both projects.

The debt service fund receives contributions from the General Fund, Street Construction Fund and the Parks Construction Fund.

FUND 271
Local Improvement District 71

Function

Local Improvement District No. 71, was established by ordinance No. 2827 of the City, passed September 19, 2010, for the purpose of carrying out the construction of an I5 overpass located at 156th Street NE. Construction of the overpass was completed in 2012 and the LID bonds were issued on September 23, 2014.

The debt service revenue is provided from special assessments on the properties within the boundaries of LID 71. Bonds will be called on June 1 of each year.

CAPITAL PROJECT FUNDS

**FUND 305
STREETS CAPITAL IMPROVEMENTS**

Function

This fund is used to design and construct capital road construction projects. Revenues are generated through grants, loans, developer mitigation fees and real estate excise taxes (REET). The REET funds are receipted into funds 110 and 111 and then transferred into the 305 fund.

Budget Narrative

Capital projects include:

		2015	2016
R0901	First Street Bypass	50,000	50,000
R0904	SR9/SR92 Break in Access	10,000	-

**FUND 310
PARKS CAPITAL IMPROVEMENT**

Function

This fund is used for the design and construction of City parks and recreational facilities. Revenues are generated through grants, loans, donations, collection of real estate excise taxes (REET) and park mitigation fees. The REET funds are receipted into funds 110 and 111 and then transferred into the 310 fund. A transfer of REET funds is not scheduled in 2015 or 2016.

ENTERPRISE FUNDS

PUBLIC WORKS UTILITIES

FUND 401
WATER WORKS UTILITY OPERATIONS
Combined Water/Sewer/Surface Water

Mission

The mission of the Water Works Utility Fund is to provide appropriate preservation and development of the City's infrastructure for the Marysville Service area.

Function

The City of Marysville provides water service 24 hours a day, currently supplying an average of around 3 million gallons per day of quality drinking water to more than 19,000 connections inside the City limits and within the Coordinated Water Study Plan Area (CWSP), as well as providing necessary fire flows, at rates that are competitive in the Puget Sound region.

Through its City-operated sewer collection system, Marysville treats and safely discharges wastewater at a current rate of about 5 million gallons per day for more than 15,000 connections inside the City and within Rural Utilities Service Area (RUSA) boundaries.

There are four divisions within the Utility Operations budget:

The Utility Construction Division is responsible for construction and repair of water and sanitary sewer extensions, replacement, service lines and appurtenances, which include hydrants, pressure regulating, flow control and metering stations. This division also repairs/installs gate and specialty valves, air-vac and blow off assemblies.

The Utility Maintenance Division is responsible for maintenance of 319 miles of water main, 7 reservoirs, 5 deep wells, a Ranney Well and the Edward Springs collectors. Valve exercising, directional flushing, cross connection and sampling programs assure the City that 3 million gallons of quality drinking water is provided to our customers on a daily basis.

The Wastewater Treatment Plant Division (WWTP) is responsible for the proper collection of wastewater, which must be safely transported from approximately 15,000 homes and businesses throughout our service area to our treatment facility. This is done through our sanitary sewer collection system, which consists of approximately 230 miles of mainline sewer with pipe diameters ranging from 6" laterals to 48" interceptors. These lines are flushed/cleaned annually by the City's vactor crew. The entire collection system is currently cleaned every 14 to 16 months. The WWTP and 15 sewer lift stations are operated and maintained by the wastewater division. The wastewater division is also responsible for the monitoring and testing of local industries to ensure compliance with local discharge standards. Operators at the treatment plant perform the sampling and testing of around 5 million gallons a day of effluent assuring compliance with the City's NPDES Wastewater Discharge Permit issued by the Department of Ecology.

The Surface Water Utility Division implements the City's NPDES Phase II Stormwater Permit. Requirements in the Permit entail public outreach and education regarding stormwater impacts; fostering public involvement and participation in decision making opportunities as they relate to stormwater management; tracing and removing illicit connections to the City's stormwater system; controlling runoff from new development, redevelopment and construction sites through plan review, inspection and training; providing municipal operations and maintenance of the City's stormwater system and associated facilities; and by providing water quality monitoring of the City's stormwater system and receiving waters.

Budget Narrative

Office and operating supplies include general office supplies, chemicals for the wastewater treatment plant, maintenance supplies used at the wastewater treatment plant, janitorial supplies, safety supplies, and other supplies used to maintain the daily operation of the City's water/sewer/surface water infrastructure.

Purchased water accounts for the amount paid to the City of Everett for water.

Professional services include but are not limited to equipment rental fees, lab sample analysis, flow monitoring fees, janitorial services, legal fees, sewer rate cost of service study, and annual update to the water, sewer comprehensive plan.

Miscellaneous expenses include fees for training classes, seminars, conferences, and membership fees. State taxes are state excise taxes assessed on the Water/Sewer customer fees. City taxes are the taxes accessed by the City and credited to the General Fund.

Interfund repairs include the cost allocation from the Fleet department for the rental and replacement of all vehicles used by the Utility department. It also includes costs associated with the repairs and maintenance performed by the Facilities department.

Other interfund services include the cost allocation from Information Services (IS) for computer maintenance and equipment replacement. This category also includes the cost allocation from Finance, Utility Billing, City Clerk, Executive, HR and Community Information Officer.

Transfer out includes the transfer to fund 450 for all debt service payments. It also includes the following transfers out of fund 401 for both years:

Transfer to fund 101 for Surface Water Maintenance	520,000
Total	520,000

ENTERPRISE FUNDS

SOLID WASTE

FUND 410 SOLID WASTE

Mission/Function

Cost of collection and disposal of commercial and residential solid waste from 12,613 homes and businesses as well as curbside recycling program with addition of the Sunnyside area.

Headcount

POSITION CLASSIFICATION	2014	2015	2016
Solid Waste Collector Lead	2	2	2
Solid Waste Collectors	6	6	8
TOTAL - SOLID WASTE	8	8	10

Budget Narrative

Operating supplies include general office supplies and the cost of container replacements and additional containers for new accounts.

Professional services include the recycling contract with Waste Management for the City's recycling program.

Tipping fees are the costs associated with dumping the garbage trucks at the county landfill.

Interfund repairs include the cost allocation from the Fleet department for the rental and replacement of all vehicles used by the Solid Waste Department.

Other interfund services include the cost allocation from Information Services (IS) for computer maintenance and equipment replacement. In addition this category also includes the cost allocation from Finance, Utility Billing, City Clerk, Executive, HR & Community Information Officer.

GOLF COURSE

FUND 420 GOLF COURSE OPERATIONS

Mission/Function

The mission of the Cedarcrest Golf Course is to be committed to customer service and ensuring a challenge with top quality playing conditions for all skill levels and ages.

The budget reflects three distinctive areas of operations including Administration, Pro-Shop Services and Maintenance. The golf course is open to the public year round.

Revenues are derived from annual passes and "punch card" sales, green fees, tournament fees, merchandise sales, cart rentals and the lease of the restaurant.

Headcount

POSITION CLASSIFICATION	2014	2015	2016
Golf Pro	1	0	0
Golf Shop Supervisor	0	1	1
Lead Worker II	1	1	1
Maintenance Worker II	1	1	1
Equipment Mechanic (Formerly Sr. Mechanic)	1	1	1
TOTAL - GOLF COURSE	4	4	4

Budget Narrative

Office and operating supplies include all office, operating and course supplies including fertilizers, pesticides, course accessories, soil, sand supplies, fuel, small tools, irrigation and drainage materials.

Inventory supplies include supplies purchased to maintain the equipment used at the golf course.

This budget also includes costs for communication, advertising, travel conferences, insurance and utilities.

Debt service principal and interest include the payment on the 2007T LTGO Refunded bond issue for golf course renovations, the 2003 Private Placement bond issued for construction of the restaurant and the remodel of the pro-shop.

FUND 450
UTILITY DEBT SERVICE
Debt Service

Mission/Function

The Utility Debt Service fund accounts for the debt service of revenue bonds as well as various federal and state loan programs. The fund services debt of the 2014 water/sewer refunding bonds and various federal and state loans for physical plant construction/upgrades. Fund revenues consist of transfers from the Water Works Utility Fund 401.

INTERNAL SERVICE FUNDS

FLEET SERVICES

**FUND 501
FLEET SERVICES****Mission/Function**

The Fleet Services mission is to maintain the City's fleet equipment, both automotive and other small equipment, in a safe and efficient manner.

This appropriation accounts for the cost associated with the maintenance, repair and replacement of the City vehicle and equipment fleet. This fund is also responsible for the purchasing and tracking of three stores facility.

Budget Narrative

Office and operating supplies include the cost of office supplies, supplies for maintenance on vehicles and the purchase of small tools.

This budget also includes cost associated with liability insurance, utility costs, training, and travel expenses.

Capital Outlay includes the purchase of all vehicles and equipment requested by all of the departments during the budget process. Since both requests are for replacement vehicles, no operating transfer is required. Items to be purchased are listed below under Approved Budget Requests.

Other interfund services include the cost allocation from Information Services (IS) for computer maintenance and equipment replacement. In addition this category also includes the cost allocation from Finance, City Clerk, Executive, HR and Community Information Officer.

FACILITIES MAINTENANCE

**FUND 502
FACILITIES MAINTENANCE**

Mission/Function

The mission of Facilities Maintenance is to provide timely, cost effective building maintenance services to the various departments and buildings in the City of Marysville.

This appropriation accounts for the cost associated with the maintenance and repair of city buildings. The revenue into the fund is generated through a cost allocation based off of the work performed in the prior budget year.

INFORMATION SERVICES

FUND 503 INFORMATION SERVICES

Vision

Information Services – Collaborate, Innovate, Create

Mission

Working together with city departments to provide timely and cost-effective access to information systems, including data and communications. Advising on, assisting with, and developing innovative solutions appropriate to the mission and goals of the City, while maintaining infrastructure integrity and data security.

Headcount

POSITION CLASSIFICATION	2014	2015	2016
Information Services Manager	1	1	1
System Analyst	1	2	2
Network Administrator	1	1	1
SCADA/Telemetry Administrator (Public Works)	1	1	1
Computer Support Tech I	1.75	1.75	1.75
TOTAL - INFORMATION SERVICES	5.75	6.75	6.75

The SCADA/Telemetry Administrator position is funded 100% by the Waterworks Utility department.

Budget Narrative

Office and operating expenses include the cost of supplies and parts used to maintain the computers and networks with the City.

Small tools include the costs of the computers purchased for replacement of existing systems.

Professional services include the costs of various software and hardware maintenance agreements.

2015 BUDGET SUMMARY ALL FUNDS

2016 BUDGET SUMMARY ALL FUNDS

GENERAL TAXING AUTHORITY

Taxes make up approximately 69% of the General Government revenue budget. Most of the tax revenue is in the form of property, sales and utility taxes.

The maximum rate allowed by law can be found in sections of the Revised Code of Washington. Several of the City's taxes including sales, leasehold, cable TV/franchise fees, hotel/motel and real estate excise tax are at the state statutory maximum. The City has chosen not to adopt some taxes allowed by law such as business and occupation tax. The remaining taxing capacity, if the City elected to impose the state statutory maximum would generate approximately \$8.7 million in additional annual revenue.

ANALYSIS OF SOURCES

2015 Budgeted Financial Sources - All funds

2016 Budgeted Financial Sources - All Funds

Property Taxes

Property tax receipts represent 13% of the City's total income for the 2015 budget year and 15% for the 2016 budget year, within the same range as prior year's at 14%. The property tax table shown above includes regular and Emergency Medical Services (EMS). The different changes from each year are a result of increases in assessed values from new construction, annexations and state utilities.

The Central Annexation that occurred in December 2009 was an area with a population of over 20,000. The assessed values of the Central Annexation were delayed from inclusion to the City's assessed value until the following year which resulted in the increase of 16.0% for 2011. The 2013 decrease of 3.4% or \$523,384 is directly related to the decrease in assessed values as the housing market continued to fall as a result of the housing crisis.

The Snohomish County Treasurer collects property taxes levied in the City of Marysville's five overlapping tax districts, which include state, local schools, Snohomish County, City of Marysville, and Sno-Isle Library. Property taxes are assessed to the citizens in March of each year for 1st half payment due on April 30th and the 2nd half due on October 30th. Several limitations control the growth of regular property tax levies and revenues:

- ❖ Revised Code of Washington (RCW) 84.52.050 limits the aggregate of all regular tax levies by the state and all taxing districts to \$10 per \$1,000 of assessed value (AV). If the taxes of all districts collectively exceed this amount, a proportionate adjustment is applied until the total is reduced to the 1 percent limit.

- ❖ RCW 84.52.043 limits the regular levy rate of a city to \$3.375 per \$1,000 of AV.
- ❖ RCW 84.55.010 limits the annual growth of revenue from the regular property tax levy to 106% per year, plus adjustments for new construction and annexations. A vote of the electorate within the taxing district can lift or set aside the 106% revenue growth limitation for specific purposes, for specific amount, and for a specific number of years.
- ❖ Referendum 47 was approved in 1997 changing property tax assessment and collection:
 - The temporary \$4.7187 reduction of the state levy was made permanent, effective for the 1998 tax levy.
 - With the intent to limit increases in property tax levies and at the same time ensure that taxing districts have adequate funding, the 106% limit, enacted in 1972 was fundamentally changed. The old maximum revenue increase of 6% is no limited to an amount equal to the Implicit Price Deflator (IPD) percentage.
 - However, if the City Council finds a “substantial need” to increase property tax revenue by more than the IPD limit, they may do so, up to a maximum of 6% with a five of seven (a supermajority of City Council) affirmative votes.
- ❖ Initiative 747, voter approved in 2001, requires state and local governments to limit their property tax increases to 1% each year, or the IPD, whichever is less, unless an increase greater than this limit is approved by voters in an election.

2015 Levy

The City of Marysville council voted not to exercise the additional 1% allowed under Initiative 747 for 2015 regular property tax receipts. Assessed values (AV) for 2015 are estimated to increase, which is the second year since 2010, prior to this AV was falling at an average rate of 9% per year. The 2015 levy rate is \$2.4369 per \$1,000 of assessed valuation, a decrease of 7.0% from the prior year of \$2.7168. The 2015 EMS levy rate decreased from \$0.4722 per \$1,000 of AV to \$0.4278.

The levy rate is a product of the amount of the total taxes assessed and property values. Under I-747 each entity is allowed to raise the total property tax collected by a maximum of 1% per year. Once the entity establishes whether to take the 1% or below then the County applies the total assessment to the total property values within the entity which then results in a levy rate per \$1,000 of assessed value.

2016 Levy

The 2016 levy will not be set until November of 2016 when the city is required to notify the County Assessor. The 2016 budget forecasts an increase of 1.1% from 2015 receipts based new construction and assessed values.

The table below provides a history of levy rates.

Property Tax Levy	2010	2011	2012	2013	2014	2015
Regular	\$2.0248	\$2.3400	\$2.6899	\$2.9056	\$2.7168	\$2.4369
EMS	.5000	.5000	.5000	.5000	.4722	.4278
Public Safety	.0514	.0426	.0000	.0000	.0000	.0000
Total	\$2.5762	\$2.8826	\$3.1899	\$3.4056	\$3.1890	\$2.8647

The fluctuation in the levy rates are a product of the formula, even if the council elects no increase under I-747 new construction and annexations increase the total assessed value for the City and also the total property taxes assessed based upon the added value. The levy rate is then calculated based upon the total property tax base.

Retail Sales and Use Taxes

Retail sales and use tax receipts represent approximately 12% to 13% of the City's total income. Marysville's economic goal of an annual 8% growth in property and sales tax receipts had been achievable since its establishment in 2003. For 2008 this goal hit a roadblock, with the economic down turn in 2008, 2009 receipts declined. The 14% increase in 2011 is mostly based upon a combination of activity; the ever changing retail market, the continuing mitigation for Streamlined Sales Tax or Destination-based Sales Tax, and the inclusion of the annexation sales tax credit (ASTC). The 2012 increase of 4.6% demonstrates signs of the economy stabilizing and the slow growth in sales that reflects purchases of large items such as vehicles and furniture. The growth in sales for 2013 was mostly attributable to construction. New retail, such as Walmart and O'Brien Honda, is attributable to the 12.1% growth in 2014. The new retail and unfinished construction are the bases for the 2015 sales and use tax estimate at an increase of \$2,573,933 or 23%. Sales tax from construction needs great consideration and is not usually included in the estimate. It is for this reason that the 2016 estimate of \$14,059,309, a 3.8% or \$515,647 increase over 2015 is a conservative outlook.

In 2007 the State legislatures passed Substitute Senate Bill 5089, the Streamlined Sales and Use Tax Agreement to be effective July 1, 2008. This agreement is a national effort to simplify and standardize the way each state taxes goods. It is estimated that Washington businesses collecting sales tax, are losing sales to out-of-state retailers that don't charge sales tax. Previous law collected retail sales tax based upon the location from which merchandise was shipped or delivered. As of July 1, 2008, Washington retailers delivering goods to customers in Washington must start collecting sales tax based on where the customer receives the merchandise – the "destination" of the sale. There is no change to over-the-counter, wholesale, most services,

and sales of motor vehicles, trailer, semi-trailer, aircraft, watercraft, modular homes, and manufactured and mobile homes.

In November 2009 the City of Marysville adopted Ordinance No. 2799 setting the threshold and tax rates in accordance with RCW 82.14.415 with respect to the Central Marysville Annexation. This action allows the City to receive a portion of the State's sales tax share, 0.1% if the annexation area population is between 10,000 and 20,000 or 0.2% if the annexation population is over 20,000, to assist with the cost of annexation. The Central Marysville annexation when completed added 20,048 to the City's population, which resulted in the 0.2% ASTC. The major growth in the sales tax estimate from 2009 to 2011 is due to this action.

The City of Marysville's current sales tax rate is 8.8%, previously at 8.6%, the additional tax was added October 1, 2014 for the voter approved Marysville Transportation District (TBD). The following table provides a breakdown of the tax rate into individual benefactors. The bolded benefactors are those that the City of Marysville receives from sales within the city limits. The State collects the sales tax revenue and distributes it back to the local entities net of administration fees.

Sales Tax Rate Breakdown

State		6.300%
City of Marysville	ASTC	0.200%
City of Marysville	Regular	0.425%
Snohomish County	Regular	0.075%
City of Marysville	Optional	0.425%
Snohomish County	Optional	0.075%
Community Transit		0.900%
City Criminal Justice		0.100%
County Mental Health		0.100%
Marysville TBD	Voted	0.200%
Total		8.800%

Lodging tax is another part of this revenue category. The City of Marysville imposes a 2% state hotel/motel tax on lodging fees. These fees are used to reinvest in tourism through an annual grant process.

Business Taxes

Business taxes represent approximately 7% to 8% of the City's total revenue. This category represents utility taxes, both internal and external, real estate excise tax (REET), leasehold tax, gambling tax, and admissions tax. The majority of the category is utility tax (77.4%) and REET (22.5%).

Utility tax is a 5% tax assessed on utilities (such as telephone, electric, and natural gas) for services sold within the city limits. During the formation of the 2010 budget the 5% utility tax for telephone services was increased to 6% for one year and renewed in each subsequent year. The council voted to renew the additional 1% for the 2015/2016 biennial budget. The majority of the 2011 17% increase in City receipts of business taxes is due to changes in utility rates for sewer and solid waste. An 8.5% tax is assessed upon city utilities such as water, sewer, and surface water; an increase in 2012 is attributable to the overall 13.3% increase of business taxes. Solid waste is assessed a 15% tax that went into effect in 2009, an increase from 6%. Utility tax for electric and natural gas becomes dependent on the weather – usually colder weather results in more use – which makes estimating difficult therefore the 2015 estimate of \$8,142,550, a increase of 4.2% or \$329,278 from the prior year and the 2016 estimate of \$8,354,856, an increase of 2.6% or \$212,306, is based on the average of the prior three years, attempting to smooth any fluctuations.

REET revenue is a tax on the sale of real estate, this market can be difficult to predict and previous years estimates were based upon the average receipt over the last five years. The housing market crisis has had a direct effect on REET revenue in earlier years and increased in force for 2012 and 2013. Construction and sales calmed in 2014 therefore to be conservative a three-year average was used for 2015 and 2016.

An admissions tax of \$0.01 for each \$0.20 (equivalent to 5%) became effective in 2010 which contributed to the increase in business taxes.

Licenses & Permits

Licenses & Permits represent 2% of the total City revenue. This revenue category consists mostly of franchise fees and building structure permits. Since the majority of the receipts in this category are related to the building industry, fluctuations in the housing market become very apparent. In 2010 the city experienced an increase in building permits from previously foreclosed developments, similar to prior 2006 receipts which continued at a lesser scale in 2011. Permit activity for 2012 did not continue this trend and 2010 and 2011 were considered abnormalities as appears to be the case with 2012 receipts of 2.7%, lower than 2011. With the economy showing signs of increasing and Boeing hiring ramp-up, construction permit activity in 2013 increased greatly, resulting in the 28% increase over 2012. This activity ramped down in 2014 and estimates for 2015 and 2016 are based on current permit activity which is down; therefore the estimate for 2015 of \$1,942,789, a 13.7% decrease and for 2016 of \$1,880,554, a 3.2% decrease.

Intergovernmental Revenue

Intergovernmental revenue receipts represent 7% of the City's total revenue in 2015 and 3% in 2016. This revenue category consists mostly of grants, state shared revenue, and entitlements. Grants, traditionally, have been the major revenue source for intergovernmental revenues at approximately 68% for 2015. The fluctuations visible in the table above are a reflection of this grant activity. The 2011 decrease of 52.6% or \$4 million is mostly a result of a decrease in grant activity.

The City of Marysville regularly seeks state and federal grants to aid in funding various projects or services. Because of the unpredictability associated with grant availability year to year, the budget only includes grant funds that are known with some certainty. 2012 had a slight increase and 2013 a slight decrease due to grant activity. Grant activity rose in 2014 with new grants from inter-local sources and intergovernmental service revenues.

The 2015 estimate for intergovernmental revenue is an increase of \$5,774,058 or 97.6%. Grant activity, the majority of this source of revenue, for transportation projects. This grant activity is also the reason for the 2016 estimated decrease of 63.6% to an estimate of \$3,063,402.

State entitlement revenues consist of motor vehicle excise taxes, liquor excise taxes, liquor board profits, and unrestricted gas taxes. In 1999, voters approved I-695 which changed the collection of motor vehicle excise tax from a percent of value to a flat \$40 this resulted in an approximate annual loss of \$200,000.

The state imposes gas and liquor taxes on sales within the state and distributes the proceeds based upon population. These estimates are provided by the State in the form of a per-capita rate and are approximately \$2,000,000 of the total intergovernmental revenues.

Intergovernmental service fees consist of court and jail services to neighboring cities. The estimate for 2015 and 2016 for court and jail services reflects a little change over the 2014 receipts.

Charges for Goods and Services

Charges for goods and services represent 37% of the City's total revenue for the 2015 budget and 41% for the 2016 budget. This revenue source is comprised of fees charged for providing services that are distinct from general services which are funded by general taxation.

Charges for goods and services include interdepartmental services; maps and publications; probation; permits; golf fees and other recreational programs; traffic mitigation; water, sewer, and surface water fees; and solid waste fees. The majority of this revenue category (98%) is attributable to water, sewer, surface water, and solid waste fees.

Revenue from city utilities is the largest portion of charges for services category. To meet state and federal regulations the Sewer Utility made approximately \$80 million in improvements, beginning in 2003 and completing in 2005. In order to fund these improvements the city contracted to have the rates reviewed to provide sufficient funding to meet obligations. This review, along with several other reviews (an average of five year increments) for the utilities of water and solid waste have resulted in the following rate increases:

Utility Rate Increases	2011	2012	2013	2014	2015	2016
Water	2.0%	2.0%	2.0%	2.0%	2.0%	2.0%
Sewer	6.5%	2.0%	2.0%	2.0%	2.0%	2.0%
Surface Water	2.0%	2.0%	2.0%	2.0%	2.0%	2.0%
Solid Waste	9.0%	5.0%	0.0%	0.0%	0.0%	0.0%

In 2010 the City adopted the recommendation of a water rate restructuring based upon an independent study. The restructuring was done to establish a balance between the tiered system and promote conservation. The revenue impact of the restructuring was estimated to be neutral for the water utility. Eighty percent of the sewer increases are due to new state and federal regulations through construction, improvements and monitoring.

Rate studies are used to provide adequate funding for the improvements as well as initiating a moderate level of increase to keep pace with inflation, currently set at 2%, and provide the ability to cash fund projects in the future and hence reduce the project cost due to borrowing as a burden to users.

Utility rates for water, sewer, surface water, and solid waste are established by council approval. The five year history of base bi-monthly rates for a household is reflected in the table below:

Household Base Rates (bi-monthly)	2011	2012	2013	2014	2015	2016
Water	\$26.60	\$27.19	\$27.72	\$28.26	\$28.87	\$29.42
Sewer	75.02	76.52	78.05	79.61	81.20	82.83
Surface Water	20.40	20.80	21.22	21.64	22.07	22.52
Solid Waste	46.88	49.22	49.22	49.22	49.22	49.22
Total	\$168.90	\$173.73	\$176.21	\$178.73	\$181.36	\$183.99

For comparison purposes the base water rate displayed includes 6,000 gallons of consumption

The 2011 revenue rose 4.7% due to transportation mitigation fees, as well as some housing starts and the increases in rates, as well as a similar increase in 2012 of 4.3%. In 2013 inter-fund service charges were reclassified from intergovernmental to charges for services, which are reflected in the 12.1% increase along with a jump in utility capital improvement charges. Utility capital improvement charges were also high in 2014, a 6.4% increase, as these are one time charges that cannot always be predicted. The 2015/2016 biennial budgets reflect a very conservative estimate with a decrease of 0.2% in 2015 and an increase of 0.3% in 2016. The utility rate increases are considered in the estimation with a weight consideration for usage, weather, and new connections.

Miscellaneous/Other Revenue

The Other Revenue category represents 22% of total City revenues for 2015 budget year and 18% for the 2016 budget year. This category's significant revenues are classified as operating transfers, which represents transfer of funds from other Funds to use for debt service, capital expenditure, or internal service. Bond proceeds received in 2010 attributed to the 2011 decrease of 54.5% since this source of funds has a very limited occurrence. The decrease of 7.4% in 2012 was attributable to a sale of property by the Utility Fund.

For 2013 increased by 101.8% was attributed to utility and road construction. The major construction was the 156th Street Overpass, the Sunnyside Area water improvements, and the Regional Detention Pond in the north end. The 2014 increase of 35.1% is attributable to transfer of bond proceed to compete the 156th Street Overpass project, transfers for utility construction, transportation construction and vehicle & equipment replacement.

The decreases for the 2015/2016 biennial budget are due to the completion of large construction projects. In 2015 transfers are planned to provide funding for projects at a reduced level than 2014 as reflected in the decrease of 25.6%. Included in these transfers are projects for city wide transportation improvements and the Sunnyside Well Treatment project. The additional decrease in 2016 of 25.9% is in the reduction of utility improvement projects.

The Miscellaneous/Other Revenue category is comprised mostly of operating transfers. These transfers are providing funding from reserves or operations to meet construction/improvement needs and debt obligations. If operating transfers were not considered this category would only represent 3% of the financial sources of all Funds.

LONG TERM DEBT

DEBT SERVICE SUMMARY

Debt Management Policy

The City's debt management policy is to plan and direct the use of debt so that debt service payments will be a predictable and manageable part of the Operating Budget. The City will raise capital at the lowest possible cost through maintenance of a high credit rating and reputation in the credit markets.

The City continues to pursue an aggressive capital improvement program through a careful balance of increased debt and substantial "pay as you go" capital projects. Each time a capital project is planned alternative financing sources are considered.

GLOSSARY

BUDGET GLOSSARY

Accountability (Accountable): The state of being obliged to explain one's actions, to justify what one does. Accountability requires governments to answer to the citizenry to justify the raising of public resources and the purposes for which they are used.

Accounting Period: A period at the end of which and for which financial statements are prepared.

Accounting System: The total set of records and procedures used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis: The basis of accounting under which transactions are recognized when they occur, regardless of the timing of related cash receipts and disbursements.

Actual: Monies which have already been used or received as opposed to budgeted monies which are estimates of possible funds to be spent or received.

Actuarial Study: A statistical analysis of the future costs associated with pension programs, along with a recommended annual program to meet these costs.

Appropriation: A legal authorization granted by the City Council to make expenditures and to incur obligations for a specific purpose or program. Usually granted for a one-year period.

Appropriation Ordinance: The official enactment by the City Council giving the legal authority for City officials to obligate and expend resources.

Arbitrage: The additional investment earnings a municipality receives by borrowing (issuing bonds) at tax exempt rates and investing the proceeds at higher yielding taxable rates. The difference is the arbitrage amount which must be paid to the IRS.

Assessed Valuation: The estimated value placed upon real or personal property as the basis for levying property taxes.

Audit: An examination to determine the accuracy and validity of records and reports by an agency whose duty it is to make sure the City conforms with established procedures and policies.

BARS: Stands for Budgeting, Accounting, Reporting System. The manual the State of Washington requires governmental entities (i.e., counties and cities) to use.

Base Budget: The ongoing cost to maintain the current level of service. Inflation is included in the budget without increasing any level of service.

Benefits: The City provided employee benefits such as social security insurance, retirement, worker's compensation, life insurance, medical insurance and dental insurance.

Bond: A written promise to pay a specific sum of money (principal) at a specified future date along with periodic interest rate. Bonds are typically used for long-term debt to pay for a particular capital expenditure.

Budget: A plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year.

Budget Calendar: The schedule of key dates involved in the process of adopting and then executing an adopted budget.

Budget Hearing: The public hearings conducted by City Council to consider and adopt the annual budget.

Budget Policy: An overall plan to guide present and future courses of action regarding the coordination of revenues and expenditures.

Capital Assets: Assets of significant value which have a useful life of several years. Also referred to as fixed assets.

Capital Budget: Major capital improvements which are beyond the routine operation of the city are budgeted under separate capital project funds. These projects, which often require more than one year for completion, include items such as expansion of treatment plants and reconstruction of intersections. In total, these projects are referred to as the Capital Budget and are not included in the annual operating budget.

Capital Improvement Program (CIP): A plan for capital expenditures to be incurred each year over a fixed period of years, identifying the expected beginning and ending date, and the amount to be expended in each year and the method of financing those expenditures.

Capital Outlays: Annual operating expenditures for the acquisition of, or addition to, fixed assets. These expenditures must cost more than \$1,000, including construction projects, land acquisition, major renovations or repairs to existing grounds or facilities, and equipment purchases.

Capital Projects: Projects which purchase or construct capital assets. Typically a capital project encompasses a purchase of land and/or the construction of a building or facility.

Cash Basis Accounting: The method of accounting where revenues are recorded when received and expenditures are recorded when paid.

Certificate of Participation (COP): A type of lease-purchase financing wherein the bank serving as Trustee issues Certificates of Participation representing an undivided proportionate interest in the construction or purchase of real property. The City leases the property from the Trustee with an option to purchase at the end of the lease term. The COP owners receive proportionate shares of the stream of revenue paid by the City under the lease. COPs are backed by the full faith, credit and resources of the City.

Contingency: A budgetary reserve set aside for emergencies or unforeseen expenditures.

Councilmanic Bonds: Bonds issued with the approval of the City Council, as opposed to bonds which must be approved by public vote. Councilmanic bonds must not exceed 0.75 percent of the assessed valuation.

Debt Service: The annual payment of principal and interest on the City's indebtedness.

Deficit: The excess of the liabilities of a fund over its assets. The excess of expenditures over revenues during an accounting period; or, in the case of proprietary funds, the excess of expense over income during an accounting period.

Depreciation: The periodic expiration of an asset's useful life. Depreciation is a requirement, in proprietary type funds (such as enterprise and internal service funds).

EMS: Emergency Medical Services.

Encumbrance: The commitment of appropriated funds to purchase an item or service.

Enterprise Fund: A type of proprietary fund containing the activities of funds where the intent is for the direct beneficiaries to pay for all costs of the fund through fees, or where a periodic determination of revenues and expenses is desired by management.

Expenditures: Where accounts are kept on the accrual or modified accrual basis of accounting, the costs of goods received or services rendered whether cash payments have been made or not. Where accounts are kept on a cash basis, expenditures are recognized only when the cash payments for the above purposes are made.

Fiscal Year: Any yearly accounting period, without regard to its relationship to a calendar year. The fiscal year for the City of Everett begins on January 1 and ends on December 31.

FTE: Stands for Full-time Equivalent. A numerical expression which indicates the amount of time a position has been budgeted for. A position budgeted at 40 hours per week for 12 months equals 1.0 FTE. Other frequently budgeted levels are 20 hours per week (.5 FTE) to show a position that has been split between two funds because the employee's responsibilities directly affect two funds.

Fund: An accounting entity with its own self-balancing set of accounts recording cash and/or other sources of revenues against expenditures for specific activities.

Fund Balance: The excess of an entity's assets over its liabilities in a particular fund. A negative fund balance is sometimes called a deficit.

GAAFR: Stands for Governmental Accounting, Auditing and Financial Reporting. The "blue book" is published by the Government Finance Officers Association to provide detailed guidance for the application of accounting principals for government.

GAAP: Stands for Generally Accepted Accounting Principles, which are accounting and reporting standards used for both private industry and government.

GASB: Government Accounting Standards Board regulates the rules and standards for all governmental units.

General Fund: The City's principal operating fund, which is supported by taxes, fees, and other revenues that may be used for any lawful purpose. The fund of the City that accounts for all activity not specifically accounted for in other funds. Includes such operations as police, fire, engineering, planning, finance and administration.

General Obligation Bonds: Bonds for which the full faith and credit of the issuing government are pledged for payment.

Grants: A contribution of assets (usually cash) by one governmental unit or other organization to be used or spent for a specified purpose, activity, or facility. Typically, these contributions are made to local governments from the State and Federal governments.

IAC: Inter-agency Committee for Outdoor Recreation

Interfund Services/Revenue: The term "interfund" refers to transactions between individual Funds of the City rather than transactions between the City and private companies, other governments or vendors. From a budgeting and accounting perspective, the service provider (e.g., Purchasing) will budget for both the cost of providing service and the revenue received from the service receiver (e.g., Utilities) for the service. In other words, one fund would be the customer of another and both budgets must reflect this provider-customer relationship. As can be seen from this description, interfund activities inflate both expenditures and revenues; this causes what we refer to as "double budgeting."

Interfund Transfers: Amounts transferred from one City fund to another.

Intergovernmental Revenue: Grants, entitlements, shared revenues and payment for goods and services by one government to another.

Internal Service Funds: A type of proprietary fund which accounts for the goods and services which are provided to other units of the City and payment by the benefiting unit is intended to fund the costs of providing such services.

Levy: To impose a tax, special assessment or service charge for the support of government activities. The term most commonly refers to the real and personal property tax levy.

Levy Rate: The rate at which taxes, special assessments or service charges are imposed. For example, the real and personal property tax levy is the rate at which property is taxed per \$1,000 of assessed valuation. The rate is determined by calculating the ratio of the maximum amount of property tax revenue allowable under state law and the total assessed valuation within the taxing district.

LEOFF: A state retirement system for law enforcement and the fire fighter personnel of the City.

Liability: Debt or other legal obligation arising out of transactions in the past which must be liquidated, renewed or refunded at some future date.

Licenses and Permits: Charges for the issuance of licenses and permits. Licenses are required by municipalities for selected trades, occupations and other activities for regulatory purposes. Permits are issued to aid regulation of new business activities.

L.I.D.: Stands for Local Improvement District. A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Mandate: A requirement imposed by one unit of government on another unit of government.

Modified Accrual Accounting: A basis of accounting in which expenditures are accrued but revenues are accounted for on a cash basis. This accounting technique is a combination of cash and accrual accounting since expenditures are immediately incurred as a liability while revenues are not recorded until they are actually received or are "measurable" and "available for expenditure". Since this type of accounting basis is a conservative financial approach, it is recommended as the standard for most governmental funds.

Non-departmental Expenditures: Expenditures that are not directly related to the operations of a single City department.

Object of Expenditure: Expenditure classifications based upon the types or categories of goods and services purchased. Typical objects of expenditure include personnel services (wages and salaries), contracted services (utilities, maintenance contracts, etc.) supplies and materials, and capital outlays.

Operating Budget: The annual appropriation to maintain the provision of City services to the public.

Operating Transfer In: Transfer from other funds which are not related to rendering of service.

Other Services and Charges: A basic classification for services other than personnel services which are needed by the City. This budget item includes professional services, communication, travel, advertising, rentals and leases, insurance, public utility services, repairs and maintenance, and miscellaneous.

Performance Objectives: A statement that describes in specific and measurable terms the results that the program is expected to achieve within a certain time-frame.

Preantepenultimate: Fourth from the last.

Program: A broad function or area of responsibility of government services. It is a basic organizational unit of government that is composed of a group of specific activities and operations directed at attaining a common purpose or goal.

Proprietary Fund: See Enterprise Fund.

Proposed Budget: The recommended and unapproved City budget submitted to the City Council and public in October/November of each year.

PERS: Stands for Public Employees Retirement System provided for all City employees, other than law enforcement and fire fighter personnel, by the State of Washington.

Reappropriation: A legal authorization granted by the City Council to reappropriate expenditures to the current budget year for a specific purpose or program that was budgeted but unexpended at the end of the prior year.

Reserve: A segregation of assets to provide for future use toward a specified purpose.

Resources: Total dollars available for appropriations including estimated revenues, fund transfers and beginning fund balances.

Revenue: Income received by the City to support programs or services to the community. It includes such items as taxes, fees, user charges, grants, fines, forfeits, interest income and miscellaneous revenue.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific source for some future period; typically, a year.

Salaries and Wages: Amounts paid for services rendered by employees in accordance with rates, hours, terms and conditions authorized by law or stated in employment contracts. This category also includes overtime and seasonal help.

Service Measures: Specific quantitative measures of work performed within an activity or program (i.e., total miles of streets cleaned). Also a quantitative measure of results obtained through a program or activity (e.g., reduced incidence of vandalism due to new street lighting program).

Special Assessment Debt: Principal and interest on bonds related to Local Improvement Districts. This type of debt is callable when money is available to make payments which occurs when prepayments are received from property owners. The City budgets as if the entire debt will be paid in the current year, although this is highly unlikely.

Special Revenue Funds: General government funds where the source of revenue is dedicated to a specific purpose.

Strategic Outlook: Document created and used by the City of Everett for long-range budget planning.

Supplemental Appropriation: An appropriation approved by the Council after the initial budget appropriation.

Taxes: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments, or charges for services rendered only to those who pay, for example, sewer service charges.

Transfers: Internal movements of revenue and expenses among funds in the budget to provide needed sources of funding for expenses incurred on behalf of another fund.

Trust Fund: Funds used to account for assets held by a government in a trustee capacity for individuals, private organizations, other governments, and/or other funds.

Working Capital: The year-end balance of current assets less current liabilities.

Workload Measure: A unit of measure to identify the amount of work or product generated from specific activities. They form the basis for determining the unit's success at reaching its performance objectives.
