

Movin' Marysville Memory Game Instructions

- Print a game board and be sure to print double sided.
- Cut out the squares.
- Face them down (Movin' Marysville side up) and mix them around.
- After they have been mixed around, put them in a 4x4 layout.
- Youngest player starts and flips over two of the squares. If they match, all players do the activity listed and the player takes the cards out and keeps them. If they don't match, the player turns the cards over and puts them back where they found them. This continues until all cards have been matched. Player with the most cards wins that round. Best 3 out 5 rounds wins and takes a victory lap around the house.
