

Toilet Paper Roll Marble Maze

Materials Needed:

- Toilet Paper Rolls and Paper Towel Rolls
- Scissors
- Markers/Stickers/Crayons
- Tape (blue painters tape is best, but if you don't have that Scotch tape also works, just be very careful to remove the tape when done)
- Marble

1. Cut toilet paper and paper towel rolls in half

2. Decorate the toilet paper and paper towel rolls

- This can be done with markers, crayons stickers or any other decoration
- Be careful not to bend your rolls
- For those who don't love to decorate, skip this step

3. Tape the rolls on a door or fridge creating a pathway/maze for the marble to roll down

- You may have to test many different positions to get the maze just right for the marble
- Be sure to put a box or container at the bottom so your marble doesn't roll away.
- A tip for using the toilet paper rolls is to overlap them when taping them up to make them longer.

4. You can move this around and play with it over and over again HAVE FUN
