

## Color Tag

This simple and fun game can be played indoors or outdoors and is great for all ages.

Materials needed:

Colored Construction Paper or Chalk

Instructions:

Lay the construction paper in different areas around the house. For outside, you can use chalk to create colored bases in your driveway.

To play, have your child/ren stand on a color. The object is for them to run from one color to another while not getting tagged by you. If you tag them, they are now it and it is your turn to run from one color to another.
